*A Milestone Achieved: **Move to Emaux's Intelligent Manufacturing Plant!***

We're thrilled to celebrate a significant step in Emaux's journey! Our new, state-of-the-art manufacturing plant is a direct investment in our mission: to create your blissful pool-living experience. This expansion is designed to dramatically boost our production capacity and elevate operational efficiency, ensuring we serve you better than ever.

As we mark this achievement, we are inspired by the sentiment: "May this milestone unveil grand visions, attract prosperity and fortune, and forge brilliance through collective endeavor."

Thank you to our incredible team, partners, and customers for being part of this exciting new chapter.

An Innovation Milestones

- **Motor production**
- **PCB & Smart Control production**

Automatic Storage Retrieval System

It increases storage density and accuracy while minimizing labor and floor space, integrating with warehouse management software.

NEW PRODUCTS 2026

Innovate Your Water! Transform Your Experience!

New range of Salt Chlorinator series

SSCnano+ Salt Chlorinator
an innovative in-line low-salt chlorinator that seamlessly synchronizes with the pump.

Low Salt

Self-cleaning cell

SSCmini-FW Salt Chlorinator
a low-salt chlorination for pools up to 50,000 liters.

New range of Sand Filter series

NV SERIES FRP MEDIA FILTER - NSF Listed

set a new standard of excellence in the recreational water industry,

GDB Series Gelcoat Filter

wide opening gelcoat Filter is an outstanding sand filter for swimming pool enthusiasts.

EcoHeat

INVERTER **GOLD** HEAT PUMP

features a durable ABS body designed to withstand year-round weather conditions.

New range of Pump series

Engineered for Easy Retrofits.

Built for Lasting Performance.

Intuitive App Control

EcoFLOW

Variable Speed & Single Speed Pump

Precise alignment with plumbing position, making it easy to replace the Astralpool CTX.

EcoWave

Variable Speed & Single Speed Pump

Precise alignment with plumbing position, making it easy to replace the Kripsol Koral KSE.

ETURBO PUMP PRO

Variable Speed & Single Speed Pump

Precise alignment with plumbing position, making it easy to replace Astralpool SENA. With Adjustable base: ESPA Silen & Astralpool Victoria Plus.

How to choose the right *Emaux's variable speed pump?*

The pool pump circulates the entire volume of water at least three times per day. However, using a pump that is too powerful for the filter will force water through the media too quickly, reducing its effectiveness and overall filtration quality.

DOLOMITI&F *New Wellness brands* **join EMAUX**

To better address users' diverse needs in life and health, Emaux is actively expanding its variety of products and enhancing their quality. We are pleased to announce the official incorporation of the new wellness brand **Dolomiti&F** into Emaux Water Technology Co., Ltd.

About Dolomiti&F

With nearly 30 years of professional experience, Dolomiti&F specializes in producing high-quality sauna equipment and offers comprehensive OEM and ODM services. The company is equipped with advanced facilities, including its own mold workshop, laser cutting machines, and automated production lines, ensuring exceptional product stability, innovative designs, and cost-effective manufacturing processes. Our heaters are certified to international electrical standards, including CE, SAA, and EAC.

This acquisition will help us expand Emaux product line and better meet diverse customer needs, reaffirming our commitment to excellence and innovation in the industry.

High Quality

Dolomiti&F products go through a long and carefully supervised production process to guarantee the best quality of each product. From the the selection of raw materials to the final inspection, we take pride in delivering a superior product.

GENERAL CONDITIONS OF SALE

1. Buyer's Acceptance of Seller's General Conditions of Sale

A. The General Conditions of Sale herein shall apply to every contract of "Emaux Water Technology Co., Ltd." (hereinafter referred to as "the Seller") for the sale of manufactured materials, parts, finished products and services (hereinafter referred to as "the Goods") to any person or company who has purchased or agreed to purchase the Goods from the Seller (hereinafter referred to as "the Buyer"), unless the Seller otherwise specifically agrees in writing.

B. By placing an order to purchase the Goods, the Buyer agrees to the General Conditions of Sale herein.

C. Any alterations or amendments to the General Conditions of sale herein must be accepted by the Seller in writing. Otherwise, they should be null and void.

2. Minimum Order

Unless otherwise specifically agreed by the Seller, the Buyer shall be charged a processing fee of USD150.00 if the Buyer places an order whereby the purchase price of the Finished Products is less than USD1,000.00; And USD 20.00 will be charged for an order of the Parts less than USD100.00.

3. Acceptance and Confirmation of Order

A. Unless stated otherwise by the Seller, all quotations made by the Seller are subject to change and non-binding.

B. Any information provided by the Seller in its price lists, catalogues, prospectuses, brochures, and/or any other document is indicative only. The Seller makes no representations about the suitability of the information therein.

C. The Seller reserves the right to make adjustments to the pricing and offerings of the Goods at any time without prior notice for reasons including, but not limited to, changing market conditions, product discontinuation, product unavailability and manufacturer price changes.

D. The Seller is under no obligation to accept any order made by the Buyer.

E. No order of the Buyer shall be deemed accepted or binding upon the Seller unless accepted by the Seller on the Seller's form of order confirmation drawn up on its own letterhead, signed by an officer or employee of the Seller duly authorized to sign on behalf of the Seller, as proof of entry into the contract between the Seller and the Buyer for the sale and purchase of the Goods set out in the order confirmation and the General Conditions of Sale herein (hereinafter referred to as "the Contract").

F. Once an order has been accepted/confirmed by the Seller, the order will be considered finalised and no further changes will be accepted.

G. Each shipment is allowed to consolidate a maximum of two orders.

H. Any arrangement with agents, representatives or other intermediaries of the Seller shall be binding upon the Seller only if such arrangement is confirmed in writing by the Seller.

4. Letter of Credit

If the purchase price of the Goods is no less than USD8,000.00, the Seller shall agree to accept payment of the Goods from the Buyer by way of letter of credit (hereinafter referred to as the "L/C") satisfactory to the Seller, established by the Buyer in favour of the Seller and confirmed by a bank acceptable to the Seller. The L/C shall be for the purchase price payable for the Goods (together with any tax, VAT or customs clearance duties payable) to the Seller under the Contract. Further details on the procedure of L/C can be requested from the administrative department of the Seller at any time.

5. Charges and Payment

A. The purchase price of the Goods quoted by the Seller is exclusive of all costs and charges of packaging, insurance, transportation and shipping of the Goods and any financial charges levied by the Buyer from the payment for the Goods, which shall be paid by the Buyer.

B. The purchase price of the Goods quoted by the Seller is exclusive of all tax, VAT or customs clearance duties which are Buyer's responsibility to pay and clear under their local laws.

C. The Seller reserves the right to increase the purchase price of the Goods, by giving notice to the Buyer at any time before the delivery of the Goods that is due to:

I. any request from the Buyer to change the delivery date, quantities or types of the Goods ordered, or the specifications of the Goods;

II. any factors beyond the reasonable control of the Seller; and/or

III. any delay caused by the Buyer's instruction in respect of the Goods or failure of the Buyer to give the Seller adequate or accurate information or instructions.

D. Any grant of credit terms must be agreed in advance in writing by the Seller. Full payment is then due in accordance with the agreed credit terms.

E. The Seller reserves the right to cancel the Buyer's credit at any time by giving written notice to the Buyer in which case all amounts due from the Buyer shall become immediately due and payable.

F. The Seller shall issue an invoice to the Buyer in accordance to the agreed terms under the Contract and the General Conditions of Sale herein. The Buyer shall pay for each invoice in full to a bank account nominated in writing by the Seller in accordance with any agreed credit terms under the Contract. The invoices are due and payable within the time period specified on the invoice, measured from the date of invoice.

G. Without limiting any other right or remedy available to the Seller, if the Buyer fails to make any payment to the Seller by the due date, the Seller shall have the right to charge an interest on the overdue amount at the rate of 1.5 percent per month accumulating on a daily basis from the due date until the date on which the full payment of the overdue amount is received by the Seller.

H. In the event of any delay in payment, even partial, the Seller shall have the right to suspend deliveries of the Goods and may, at its option, require immediate payment of all sums owed by the Buyer or terminate the Contract.

I. The Buyer shall pay all amounts due under the Contract in full without any counter-claim, set-off, deduction or withholding (except for any deduction or withholding required by law). Only in cases when the Seller issues a credit note to the Buyer, the Buyer can withhold payment to the extent that the withholding amount is not more than the amount stated on the issued credit note.

6. Title and Risk

A. Title to the Goods shall remain vested in the Seller and shall not pass to the Buyer until the purchase price for the Goods has been paid in full and received by the Seller. Until title to the Goods has passed to the Buyer:

I. the Seller shall have authority to retake, sell or otherwise deal with and/or dispose of all or any part of the Goods prior to the full payment;

II. the Buyer shall hold the Goods on trust for the Seller;

III. the Seller (and its agents and employees) shall be authorized, at any time and without the need to give notice (and accompanied by any court representative is mandatory under the applicable law), enter the Buyer's premises during working hours in order to proceed with an examination or recovery of Goods to which it has retained title;

IV. the Buyer shall store or mark the Goods in a manner reasonably satisfactory to the Seller indicating that title to the Goods remains vested in the Seller;

V. the Buyer shall insure the Goods to their full replacement value, and arrange for the Seller to be noted on the policy of insurance as the loss payee; and

VI. the Buyer shall indemnify and hold harmless the Seller from and against any claim, action, suit or demand or any expense, loss, damage or liability suffered or incurred arising out of or incidentally to any misrepresentation, breach of warranty or breach or non-fulfillment of any material covenant, obligation or agreement of the Buyer set forth in the General Conditions of Sale herein, associated with the order or under the Contract.

B. Irrespective of whether title to the Goods remains vested in the Seller, all risk of loss or damage to the Goods shall pass to the Buyer immediately upon delivery of Goods by the Seller.

C. The Buyer shall not be entitled to pledge or in any way charge by way of security for any indebtedness of the Goods which remain the property of the Seller, but if the Buyer does so, all monies owing by the Buyer to the Seller shall (without prejudice to any other right or remedy of the Seller) forthwith become due and payable.

7. Termination and Cancellation

Without limiting its other rights or remedies, the Seller reserves the full right to terminate any transaction if the Buyer breaches any of the terms herein or under the Contract, or delay partial or total payment of the order, or delay the payment of previous orders. The Buyer cannot cancel an order or any part of an order without the express consent of the Seller in writing and any cancellation that the Seller may in its sole discretion consent to shall be subject to a handling fee equivalent to 30% of the purchase price of the Goods affected by the cancellation or the deposit paid by the Buyer (whichever is higher), without limiting the Seller's right to claim the damages caused by the cancellation of the order.

8. Storage Policy

All orders must be shipped within ten (10) days of completion to avoid storage fees. A storage fee of \$50 per container per day will be charged if the order is not shipped after ten (10) days of completion. For orders not shipped after twenty (20) days of completion, Emaux reserve the right to cancel the entire order. And if there are any deposit payments, they will result in forfeiture.

9. Claims

Any claims must be made in writing and must indicate in detail the defects and/or non-compliances contested within 14 days of the receipt of the Goods. If the Goods happened to be damaged in the shipment process, the claims must be filed to the delivering carrier and noted on the freight bill before the receipt of the Goods.

10. Force majeure

The Seller shall not be liable or responsible for any delays in delivery and failure to do so if the conditions were deemed out of the control of the Seller, including but not limited to fires, act of God, strikes, labor difficulties, acts of government and military authorities. Should such events continue to prevent the Seller from performing the Contract, the Seller may terminate the Contract.

PRODUCT WARRANTY POLICY

Introduction

This warranty supersedes all previous publications. Emaux Water Technology Co., Ltd. ("Emaux") manufactures its products with the highest standard of workmanship, using the best materials available through state of the art process. Emaux proudly warrants its products as follows:

This warranty shall not apply in the event of:-

1. Damage caused by careless handling, improper repackaging, or shipping.
2. Damage due to misapplication, misuse, abuse or failure to operate and install the equipment as specified in the owner's manual.
3. Damage caused by misuse, abuse or failure to operate and install the equipment out of the scope of a professional level demanded in similar equipment or installation type.
4. Damage due to unauthorized product modifications or failure to use original replacement parts of Emaux.
5. Damage caused by negligence or failure to properly maintain products as specified in the owner's manual.
6. Damage caused by failure to maintain water chemistry in conformity with the standards of the swimming pool industry for any length of time.

7. Damage caused by water freezing inside the product.
8. Accidental damage, fire, or other circumstances outside the control of Emaux
9. any willful modification, alteration, or repair in any way made to any part of the product by any person that is not authorized by Emaux.
10. Wear & tear parts.
11. Damage caused by the misapplication of electricity, natural calamities, or physical force.

Claim Process

Summary of Emaux's Claim Process in 3 Steps:-

1. Claim against the warranty: Customer contacts Emaux's salesperson and provides completed details of the claim which includes:
 - Information about the failed/damaged products e.g. the product part number(s) and serial number(s)
 - Description of the complaint/failure
 - Relevant pictures
2. Once the complaint is received, it will be reviewed by Emaux's Quality Department in accordance with the "Emaux Warranty Policy" in the 2021 Emaux Product Catalogue.
3. After the investigation is completed, Emaux will inform the distributor of the said products and follow up with the customer accordingly.

Emaux's Liability for the Products

Emaux warrants that its products are of sound material and workmanship. Should a defect become evident during the term of the warranty, Emaux will, at its option, repair or replace such item or part at its own cost and expense. The customer will need to follow the above warranty claim process from Emaux in order to obtain the benefit of this warranty.

Emaux is not, however, responsible under this warranty for any cost of shipping or transportation for the return of the products to Emaux and the delivery of repaired or replacement product to the customer. Emaux shall not be liable for any loss of time, inconvenience, incidental expenses such as labor cost, phone calls, legal cost or material cost incurred in connection with the replacement or removal of the product, and any other consequential or incidental damage on persons or assets. Emaux will not be responsible for any business profit loss due to operation stop and the non-conformity product. No indemnity or damages can be claimed on any account what so ever.

Warranty or Representations by Others

No dealer or other person has the authority to provide any warranty on behalf of Emaux or its brands/group. Accordingly, Emaux shall not responsible for any such warranty or representation.

Emaux Warranty Policy (2025/2026): This document supersedes all previous versions of our statements / publications.

Emaux Water Technology Co., Ltd. reserves the final right to exercise all warranties in case of disputes.

FILTER

Max Series Filter

For residential and semi-commercial pools

USER - FRIENDLY AND INNOVATIVE DESIGN

Emaux's innovative design and advanced technology offer superior filtration performance and crystal clear water. Max series filters are seamless, one-piece blow-molded filter tank in high density polyethylene for heavy duty use and reliability.

Tank Material

HDPE

Max Operating Pressure

40 psi / 2.8 bar

Max Temperature

50°C (122°F)

Suggested Size of Media

0.5-0.8mm

Max Series Filters are equipped with:

1. 6-way multiport valve
(MFV: 1.5"MPV07, 2"MPV08)
(MFS: 1.5"MPV03, 2"MPV04)
2. Universal standard of union connection
3. Pressure gauge
4. PVC & ABS Lateral system
5. Piping kit

Features

Unique one-piece clamp with screw-type lock simplifies installation, allowing tool-free servicing.

Equipped with a 6-way multiport valve which is constructed with sturdy ABS and marine-grade stainless steel.

Easy-to-read pressure gauge for inspection, and one-piece clamp for easy removal of lid and access to interior.

Volumetric Filter

For residential and semi-commercial pools

ENGINEERED FOR THE DIFFERENCE

One-piece blow-molded filter tank combining the technology of structural engineered high-density polyethylene material manufactured to maximize the strength of the filter. It is perfectly suited for all pools with different disinfection systems (Salt chlorinator, Ozone, UV, and chemical dosing).

The Volumetric Filter is designed for the best clarity of filtered water and has an outstanding pressure standard among the market benchmarks.

The filter incorporates a multiport valve manufactured from robust components to create the most efficient, reliable, and user-friendly filter positioning it in the market for the best return on investment.

Volumetric

Model: T600

[Product Video](#)

Model: T450

Tank Material

HDPE

Max Operating Pressure

58 psi / 4.0 bar

Max Temperature

50°C (122°F)

Suggested Size of Media

0.5-0.8mm

Volumetric Filter is equipped with:

1. 6-way clamp style multiport valve (1.5"MPV07, 2"MPV08)
2. Universal standard of union connection
3. Pressure gauge
4. ABS Lateral system

Advantages

1. Better Water:

30% more volume of filtration bed compared to other filters in the market improves the filtration quality.

2. Less Backwash:

The high volume of filtration bed allows the filter to trap more dirt and as a result, less frequency of backwash is required.

3. User-friendly:

Easy to install, maintain and replace. Affordable spare parts available.

4. High compatibility:

The filter and its components are compatible with all different kinds of pool applications.

5. Robust Performance:

HDPE filter body provides the best protection under any extreme weather conditions.

Professional approach for creating better water

1. 6-Way Multiport Valve

Unique design allows tool-free service and maintenance

2. Filtration Bed

30% higher filtration bed promotes deeper water filtration for better water quality

3. Drain Cover

Robust and reliable to reduce operating and maintenance costs

4. Handy Clamp Lock

The hinged clamp allows 360° rotation of the valve to simplify installation and plumbing work

5. Filter Tank

An innovative T-shaped filter tank is designed for better backwashing. HDPE tank can withstand higher water pressure and water temperature

6. Double-Layered Lateral System

Benefits from uniform filtered water collection and provides thorough backwashing of the filter media

P & SP Series Filters

For above-ground and residential pools

LIGHT YET STRONG

P and SP Series Filters withstand many years of prolonged exposure to sunlight. The UV-resistant one-piece blow-molded filter tank has been well-received by the industry, not only because of the durability of the material, but also due to its reliable performance and economy.

WIDEST CHOICES FOR DIFFERENT POOL SIZES

The bobbin-wound filter is manufactured by computerized fiberglass filament winding technology. This provides the mechanical strength of the filter tank and its ability to withstand pressure. V Series and S Series are manufactured by automatic bobbin winding technology from long-lasting and non-corrosive fiberglass and resin. The UV resistant composites allow the filter to resist extreme weather conditions for a long working life without corrosion.

S Series Filter is equipped with :

1. 6-way multiport valve
(1.5"MPV03, 2"MPV04, 2.5"MPV13)
2. Universal standard of union connection
3. Piping kit
4. Pressure gauge
5. Lateral system

GDB Series Gel-Coat Filter

For residential and commercial pools

DURABLE AND TRUSTWORTHY

The Emaux wide opening gelcoat Filter is an outstanding sand filter for swimming pool enthusiasts. Its flawless gelcoat surface is not only aesthetically pleasing but also resistant to corrosion. The specially deepened sand layer enhances water clarity, while the transparent wide filter cover and side view panel simplify monitoring, ensuring optimal filter maintenance. Equipped with the reliable and durable Emaux 6-way valve, this laminated filter stands out as one of the most advanced sand filters available.

ABS lateral system

Solid 30mm thick transparent lid

6-way valve with multiple connection

Side sight panel for instant checking

Tank Material

Gelcoat Fiberglass

Max Operating Pressure

36 psi / 2.5 bar

Max Temperature

43°C (109°F)

Suggested Size of Media

0.5-0.8mm

GDB Filter is equipped with :

1. 6-way multiport valve
(1.5" for GDB500/GDB600, 2" for GDB750)
2. Universal standard of union connection
3. Pressure gauge
4. ABS Lateral system
5. Piping kit

Optional Accessories

GAC Series Gel-Coat Filter

For residential and commercial pools

STRIKING AND RELIABLE

Emaux wide opening gelcoat filter is the perfect sand filter for all swimming pool enthusiast. The flawless gelcoat filter surface is not only eye catching but also corrosion resistant. The transparent wide filter lid provide an exceptional size to monitor and maintain the best filter condition. With the reliable and durable Emaux 6-way valve, this laminated filter is one the most sophisticated sand filter in the market.

Features

ABS lateral system

Solid 30mm thick transparent lid

6-way valve with multiple connection

Air Relief Valve & Pressure Gauge Kit

Tank Material
Gelcoat Fiberglass

Max Operating Pressure
36 psi / 2.5 bar

Max Temperature
43°C (109°F)

Suggested Size of Media
0.5-0.8mm

GAC Filter is equipped with :

1. 6-way multiport valve
(1.5" for GAC500/GAC600,
2" for GAC750/900)
2. Universal standard of union
connection
3. Pressure gauge
4. ABS Lateral system
5. Piping kit

TMG & SMG Series Gelcoat Filters

For residential and commercial pools

COMBINATION OF QUALITY AND ELEGANCE

Emaux Gelcoat Filters are produced by skilled workers and experienced engineers in modern manufacturing facilities. Each product is subject to a 100% inspection at every production stage and a strict hydrostatic pressure test. In order to achieve their best performance, 20,000 cycle tests were conducted to determine the specifications of the filters.

Tank Material

Gelcoat Fiberglass

Max Operating Pressure

36 psi / 2.5 bar

Max Temperature

43°C (109°F)

Suggested Size of Media

0.5-0.8mm

Advantages

1. Non corrosive gelcoat fiberglass tank with smooth finish
2. Can be produced in different colours for choice of appearance
3. SMG: Curved valve connecting elbow reduces head loss
4. SMG: Transparent lid provides clear view of filter media, and an air release valve allows trapped air to be evacuated

TMG Filter is equipped with :

1. 6-way clamp/bolt style multiport valve (1.5"MPV07, 2"MPV08, 2"MPV02 for TMG750 & TMG900)
2. Universal standard of union connection
3. Pressure gauge
4. ABS Lateral system

SMG Filter is equipped with :

1. 6-way multiport valve (1.5"MPV03, 2"MPV04)
2. Universal standard of union connection
3. Pressure gauge
4. ABS Lateral system
5. Piping kit

SR Series Ring Lock Filter

For residential and semi-commercial pools

FOR EASY MAINTENANCE

SR Series Ring Lock Filter includes a bobbin-wound fiberglass reinforced tank. With a UV-resistant surface finish, it is able to operate under prolonged sunlight for years of reliability. The transparent lid is designed for easy inspection of the sand bed. Without using any tools, the lid can be removed by turning the specially designed ring-lock, making maintenance much easier.

Galaxy IDE Filter

For Residential & Commercial Pool and Spa

EXCEPTIONAL FILTRATION QUALITY

Galaxy IDE filters are known for their excellent filtration capabilities. The perlite or diatomaceous earth powder coats the filter grids, creating a fine, porous layer that can trap even the smallest particles, including dirt and debris. This results in cleaner and clearer pool water. They are particularly effective at removing microparticles, including fine dust, pollen, oils, and even some pathogens. This can contribute to a healthier and safer swimming environment for you and your family. The lower pressure of operation compared to other filters, IDE filters resulting in enginery savings. Emaux offers a variety of IDE filter models and sizes to accommodate different pool sizes and filtration needs. This allows you to choose a filter that is specifically suited to your pool requirements.

GALAXY SERIES IDE FILTER

Special Design for IDE Filter

Reinforced connections and frame

This ensures the grid's durability and prevents any potential leaks or damage during operation. It helps distribute the pressure evenly across the grid, preventing any potential damage or deformation during operation.

Polypropylene cloth

Polypropylene cloth exhibits exceptional resistance to degradation from pool chemicals. Its non-stick characteristics and robust durability simplify cleaning and maintenance, ensuring efficient capture and retention of even the tiniest particles and impurities found in pool water.

6-Way Multiport Valve For IDE Filter

The side mount filter valve special design for IDE Filter is made of ABS material with a heavy-duty plastic handle. Easy installation, maintenance, and servicing.

Galaxy Series IDE Filter is equipped with :

1. Universal standard of union connection
2. Pressure gauge
3. IDE filter element

Design Filtration Velocity

4.9 m³/h/m²
[2.0 gpm/ft²]

Max Operating Pressure

Galaxy Single-Element Cartridge Filter

For residential and semi-commercial pools

DELIVER OPTIMAL SPARKLING CLEAR WATER

Galaxy Single-Element Cartridge Filter is built with high-strength and UV-resistant material to prolong the product life. The compact and low height design is suitable for any pool especially with limited system setup space. The extensive dirt-catching capability of the filter element makes this filter highly efficient. A reliable choice for crystal clear water.

Product Video

Features

Large water drain

Smart pressure gauge

Quick-release lock ring

Air relief valve

User friendly

- 4 x mounting holes
- Easy-grip lid handle
- Indicative pressure gauge tells you when to service
- Knee-height tank base facilitates easy cartridge replacement

Trouble-free maintenance

- Locking ring with quick-release latch allows removing and installing the top tank quickly.
- Large water drain makes fast and easy winterisation.
- Simple cleaning and rinsing the filter element with a garden hose.

Eco-Friendly

Big one-piece cartridge element provides a large filtration surface for trapping more dirt and debris. Less cleaning required, and unlike sand filters, needs no backwashing thus saving water and its precious chemicals.

NOTE:

Based on Industry standard:

1. The maximum flow velocity for residential pools is 1 GPM/ft², with a maximum flow rate of 120 GPM; For public pools, the maximum flow velocity is 0.375 GPM/ft², with a maximum flow rate of 150 GPM.
2. Determined by pump size and piping system hydraulics; 2" piping is recommended for flow rates equal to or greater than 90 GPM (341 LPM).

Galaxy Multi-element Cartridge Filter

For residential & commercial pool and spa

DELIVER SUPERIOR ULTRA CLEAR WATER

The Galaxy Multi-Element Cartridge Filter is designed to be the best in its class. Adopting the latest technology and constructed with non-corroding and durable materials, the Emaux Galaxy Cartridge Filter has a bigger filter area than most models on the market. The high capacity tank partnered with the advanced multi-element raises hydraulic dirt-catching performance to new levels. Due to being eco and user friendly, it's the ideal choice for residential and commercial pools.

Product Video

Features

Detachable grip handle

Large flow air relief valve

Large water drain

Smart pressure gauge

User friendly

- Indicative pressure gauge tells you when to service
- Optional removable, easy-grip handle
- Knee-height tank base facilitates easy cartridge replacement

Trouble-free maintenance

- 3-session clamp kit allows removing and installing the top tank quickly
- Large water drain makes fast, easy winterisation and simple cleaning and rinsing with a garden hose.

Eco-Friendly

Multi-element provides an enormous surface area to block more dirt thus require less cleaning. Also, no backwashing is needed like sand filters. It can save a large amount of water every year.

NOTE:

Based on Industry standard:

1. For public pools, the maximum flow velocity is 0.375 GPM/ft², with a maximum flow rate of 150 GPM.
2. Determined by pump size and piping system hydraulics; 2" piping is recommended for flow rates equal to or greater than 90 GPM (341 LPM).

Cartridge Filter Element

EXCEPTIONAL FILTRATION PERFORMANCE

Emaux cartridge filter elements are advanced filtration solutions designed to enhance pool water quality and ensure a cleaner, healthier swimming environment. Engineered with high-density materials and available in various micron ratings and material options, these elements are capable of filtering out particles as small as 5 microns, effectively removing sediment, dirt, and contaminants from the water.

Made of high-quality fabric material, Emaux cartridge filter elements provide efficient and effective filtration of dirt, debris, and other particles from pool or spa water. They are designed to be durable and long-lasting, featuring a strong, sturdy frame and high-quality materials that resist chlorine degradation and can withstand the demands of filtration.

Compatible with Emaux cartridge filters, they offer easy installation and simplified maintenance, making them a convenient choice for pool owners. Available in a wide range of sizes and configurations, it's easy to find the right filter element to fit your specific pool or spa filtration needs.

By investing in Emaux cartridge filter elements, users not only achieve superior water clarity but also promote the longevity and efficiency of their filtration systems. To keep the water clean, clear, and free of contaminants, Emaux cartridge filter elements are the best choice. Upgrade your pool experience with Emaux's innovative filtration technology for crystal-clear water.

Features:

- EASY INSTALLATION
- LOW MAINTENANCE
- WIDE RANGE OF SIZES
- CHEMICAL REDUCTION
- ECO-FRIENDLY DESIGN
- DURABLE CONSTRUCTION
- HIGH FILTRATION QUALITY

STANDARD Cartridge Filter Element

- DELUXE WATER QUALITY
- LONG LASTING
- RESIST CHLORINE DEGRADATION

HIGHER EFFICIENCY CORE

Employing engineered ABS to enhance flow, efficiency, and energy efficiency, these unique cores elevate the cartridge's filtration performance.

FRACTURE-RESISTANT BAND

Exceptionally durable and undergoes a stringent sealing process, reinforced to support pleats, easy cleaning and long filtration cycles.

ANTIMICROBIAL Cartridge Filter Element

- LONG LASTING
- SILVER ION TECHNOLOGY
- INHIBIT THE GROWTH OF BACTERIA
- RESIST CHLORINE DEGRADATION

Filter element with Silver ion technology are designed to provide enhanced filtration performance, with the silver ions helping to inhibit the growth of bacteria and other micro-organisms in the filter element. This can result in cleaner, clearer water and a more enjoyable swimming or spa experience.

ANTIMICROBIAL SILVER ION TECHNOLOGY

Silver ion is an antimicrobial agent that stops the growth of micro-organisms. It prevents the growth for a wide range of microbes. Silver ion effectively inhibit the growth of bacteria on the cartridge surface.

CF25-CF200 ICF100-ICF680

Emaux's new high-density cartridge filter elements are crucial for superior pool purification. Capable of filtering particles as small as 5 microns, they enhance water quality by removing sediment, dirt, and contaminants, creating a healthier swimming environment. Compatible with Emaux cartridge filters, they are easy to install and maintain. Investing in these elements ensures cleaner, safer water while promoting system longevity and efficiency. Upgrade your pool experience with Emaux's innovative filtration solutions!

ACTIVATED CARBON CARTRIDGE FILTER ELEMENT

Emaux's new cartridge filter element with activated carbon is a groundbreaking solution for pool water purification. It effectively adsorbs impurities like chloramine, volatile organic compounds (VOCs), and odors, enhancing water taste and clarity. This innovative filter significantly reduces harsh chlorine levels and harmful chemicals, including heavy metals like lead and mercury, promoting a healthier swimming environment for all.

CF Series Cartridge Filter

For residential and semi-commercial pools

COMPACT AND LIGHTWEIGHT

Model: CF25

Model:
CF200

The CF Series Filter comes with a UV resistant tank and a heavy-duty ring-lock lid which allows easy cleaning and replacement of the cartridge element. A screw-type air bleed valve releases trapped air inside the filter tank. The high-quality oil-filled pressure gauge provides an easy overview of the operating pressure.

Tank Material

UV Resistant Plastic

Max Operating Pressure

250kPa/36psi(2.5bar)

Max Temperature

40°C (104°F)

NOTE:

Based on Industry standard:

1. The maximum flow velocity for residential pools is 1 GPM/ft², with a maximum flow rate of 120 GPM.
2. Determined by pump size and piping system hydraulics; 2" piping is recommended for flow rates equal to or greater than 90 GPM (341 LPM).

CF Series Filter is equipped with :

1. Universal standard of union connection
2. Pressure gauge
3. Cartridge filter element

HD Series Deep Bed Filter

For domestic and light commercial filtration

SLIM DESIGN AND EASY INSTALLATION

HD Series Deep Bed Filter is designed for filtering incoming water supply for domestic and light commercial use. Undesired particles such as rust, sand, dirt, and other impurities found in water are trapped by the filter bed, offering crystal clear filtered water. Simple operation, ultra-long life, robust weather, and sunlight resistant fiberglass tank.

Tank Material

Bobbin Wound
Reinforced Fiberglass

Max Operating Pressure

100 psi / 7 bar

Max Temperature

50°C (122°F)

Suggested Size of Media

0.5-0.8mm

HD Series Filter is equipped with :

1. 6-way screw style multiport valve (1" MPV06)
2. Universal standard of union connection
3. Pressure gauge
4. Lateral system

COMMERCIAL FILTER

Perlite Filtration System

For commercial pools, aquatic parks and aquariums and large scale water features

AUTOMATIC CLEANING FOR HASSLE-FREE MAINTENANCE!

The Emaux Perlite (Diatomaceous Earth [DE] compatible) Filtration System is an efficient and advanced solution specifically designed for swimming pool filtration. The DSP (Digital Signal Processing) automatic control system utilizes the exceptional filtering performance of perlite, capable of capturing even the smallest particles to ensure a clean and healthy swimming environment.

The system features a graphical user interface that makes it easy to control and monitor performance, allowing for optimal water quality maintenance. It includes automatic functions for coating the perlite and cleaning the filter. This intelligent system automatically manages the coating of the perlite filter media, ensuring sustained high-efficiency filtration throughout the entire process.

Additionally, the automatic cleaning function helps maintain filter performance, reducing the need for manual maintenance and prolonging the system's lifespan. With a flow rate of up to 160 m³/h, this system is suitable for large-scale swimming pools, ensuring rapid water circulation and effective filtration for a refreshing and comfortable swimming experience.

Any self-diagnostic, disassembly, or modification of the electrical circuits in the Emaux Perlite Filtration System must be carried out exclusively by professional pool technicians.

Product Features:

1. Automatic cleaning function
2. Graphical user interface
3. For easy maintenance
4. Exceptional filtration quality

Equipment installation:

Emaux Perlite filtration system consists of the following parts:

Key Features:

1. **NSF Certified Safety:** NSF 50 certified for safety and quality, ensuring clean, safe water for you and your family.
2. **Advanced Filtration:** Tested to high standard of turbidity removal standard, consistently deliver clear water.
3. **Energy-Efficient Flow:** Engineered to reduce filter and backwash pressure drops, ensures smooth, energy-efficient operation with lower running costs and less strain to the filtration pump.
4. **Weather-Resistant Design:** UV-resistant coating and durable construction ensure reliable performance in all weather conditions, year after year.
5. **Pressure Testing:** Tested to withstand 20,000 pressure cycles, and built with a 4:1 burst pressure ratio, guaranteeing a safe, long-lasting durability and consistent performance.

With Nozzle System

Commercial Filter

ABLE TO WORK AND RESIST EXTREME WEATHER CONDITIONS

The filter tank is manufactured of durable, non-corrosive fiberglass and resin, with automatic bobbin winding technology, UV resistant composites, which allow the filter to operate under extreme weather conditions.

Components:

- ① **Manhole**
Lateral manhole for easy access to internal system maintenance and service
- ② **Sightglass**
Allows great observation on media status and backwash effect
- ③ **Flange**
Heavy duty FRP flange connections in either ANSI or DIN standard
- ④ **Manometer**
High quality pressure gauge to monitor the pressure inside the filter tank
- ⑤ **Union Drain**
A quick discharge point for water and filter media
- ⑥ **Lateral System**
Constructed of ABS+PP material with rigid structure and 0.4mm slot
- ⑦ **Air Vent Valve**
Release air bubble valve in the filtration system
- ⑧ **Base**
Flat base for increase the stability

Multi-layer construction (from inner to outer):

- ① ISO or VE gelcoat barrier, corrosion resistant
- ② Woven roving fibers with ISO polyester resin, water proofing
- ③ Woven roving with high content of fiberglass, structural strength
- ④ Continuous outer filament winding with ISO resin, reinforced to withstand pressure
- ⑤ PU surface coating, UV resistant and dirt protection

Commercial Filters NL, E, K Series

For competition swimming pools, aquatic parks, aquariums, commercial spas, fountains and water treatment plants

EXCELLENT PERFORMANCE WITH DEEP SAND BED!

The filter tank is manufactured of durable, non-corrosive fiberglass and resin, with automatic bobbin winding technology, UV resistant composites, which allow the filter to operate under extreme weather conditions.

586.1127

Filtration System
Laterals / Nozzles

Max Filtration Velocity
 $50\text{m}^3/\text{h}/\text{m}^2$

Max Operating Pressure
36psi(2.5bar)
58psi(4.0bar)

Max Temperature
 43°C (109°F)

Suggested Size of Media
0.5-0.8mm
1-2mm

Product Features:

1. Multi-construction layers: non-corrosive and chemical protective
2. UV resistance, suitable for operation under prolonged sunlight
3. High filtration standard with deep sand bed
4. Bobbin wound fiberglass reinforcement with polyester resin
5. Available with laterals or nozzle plate system for air scouring capabilities
6. Optional accessories includes sight glass, manhole, union drain, and air purge

Optional Accessories:

Sightglass: 114mm

Code: E012072

Air purge: 20mm

Code: E012054

Manhole: Dia.400mm

Code: 4105064354

Manhole: Dia.500mm

Code: 4105067252

Laterals System:

Nozzle System:

Flange connection standard optional:
GB(HG20592 PN1.0MPa) or ANSI(ANSI B16.5(1988) Class150)

Commercial Filters H Series

For commercial pools, aquatic parks and aquariums and large scale water features

LONG SERVICE LIFE, HIGH FILTRATION SURFACE

With the professional engineering experience and a large Glassfiber Reinforced Polyester (GRP) production facility, Emaux is capable to design and manufacture a wide variety of commercial sand filters constructed by a multiple-layer moulded structural inner layer, and a continues outer filament winding by computer controlled winding machines.

Filtration System

Laterals

Max Filtration Velocity

50m³/h/m²

Max Operating Pressure

36psi(2.5bar)

58psi(4.0bar)

Max Temperature

43 °C (109 °F)

Suggested Size of Media

0.5-0.8mm

1-2mm

Product Features:

1. Multi-construction layers: non-corrosive and chemical protective
2. UV resistance, suitable for operation under prolonged sunlight
3. Inner filtration system with evenly spread laterals enhances filtration performance
4. Bobbin wound fiberglass reinforcement with polyester resin
5. Service manhole for easy maintenance
6. Equipped with manometer for easy reading of the working pressure of both inlet and outlet

Optional Accessories:

Sightglass: 114mm

Code: E012072

Diagrams:

Dual Stack Sand Filters

For aquarium and large scale pool lagoons

DEMAND MINIMAL FOOTPRINT

The Emaux Dual Stack Sand Filter is engineered to the highest strength and durability. The filter is built to maximize long term performance to resist structural failures caused by corrosion and pressure. It offers a vertically stacked design that doubles the filtration capacity for the same footprint. The Dual Stack Sand Filter is ideal for high-load or high-flow of water facilities such as public pools and water parks.

Filtration System

Laterals

Design Filtration Velocity

30m³/h/m²

Max Operating Pressure

58psi(4.0bar)

Max Temperature

43°C (109°F)

Suggested Size of Media

0.5-0.8mm
1-2mm

Product Features:

1. Minimizes the floor space for installation
2. Integral base design and self-supporting stackable structure
3. Available in a complete system using Emaux manifold valve systems
4. Optional Vinyl Ester coating maximizes corrosion resistance against saltwater and all kind of pool chemicals including ozone

Large Size Horizontal Sand Filter

For aquarium and large scale waterland

CUSTOM-BUILT AVAILABLE HORIZONTAL GIANT!

Horizontal sand filter provides a larger filtration area for installation space optimization. Emaux manufactures horizontal sand filter up to 3 meters in diameter and 10 meters in length. Emaux is also able to build to individual project requirements. Dimensions can be modified according to project specifications.

Product Dimensions

Custom-Built Service

Fit all projects' needs

Emaux offers a fully customized service from system design, dimensions, working pressure, connections, to internal and external finishing to meet your project needs.

The products are designed and manufactured in accordance with the latest international industry standards such as BS EN-13121, European Directive of Pressure Vessels 97/23/EC; and employ a quality assurance program that starts with confirmation and testing of raw materials right through all stages of the manufacture and final testing.

Each sand filter is individually pressure tested and comes with its own factory test certificate, quality assurance record, and serial number.

Full customer supports from system design to on-site support

Emaux assists customers to review their design before building the filter, provide on-site inspection before installation, and installation supervision. Also, the availability of spare parts is ensured to extend the life of the product.

Customized maximum size and performance:

FILTER SYSTEM

Ultra Filter System FSU Series

For above-ground pools, with built-in timer option

- Valve
- 4-Way Multiport Valve
- Max Working Pressure
- 29psi/2bar
- Max Water Temperature
- 40°C (104°F)
- Suggested Size Of Media
- 0.5-0.8mm

Note: Flow curve information based on 220V/50Hz motor.

- FSU Series Filtration Combo** includes:
1. Durable top mount plastic filter tank

2. 4-Way Multiport Valve

3. Aqua-Mini Pump (AMU020TP or AMU020P)

4. Timer (optional)

EMD Series In-Ground Filter System

Easy installation with pre-installed plumbing and durable, weatherproof enclosure

SIMPLIFY THE INSTALLATION AND OPERATION

Emaux EMD Series In-Ground Filter System is made from fiberglass-reinforced plastic, water-tight, and equipped with a submersible pump to drain water automatically. The filter systems are suitable for all kinds of pool shapes and sizes and can be customized to your specific requirements.

Max Working Pressure

36psi/2.5bar

Max Water Temperature

43°C (109°F)

Suggested Size Of Media

0.5-0.8mm

The Content

1. The system consists of a subsystem for filtration, hydraulic massage, sanitizing and lighting
2. Service Lights installed on the corner will turn on automatically when the cover is open
3. It can be equipped with salt water chlorinator which is the most effective and widely used means for sanitization

Timer-controlled Automation

1. Eliminates the needs for manual power on/off and professional staff for maintenance
2. Convenient and user-friendly

FILTRATION MEDIA

Glass Filtration Media

For all types of swimming pool, water park and water features

CREATE CRYSTAL CLEAR WATER

Advantages

1. Lighter than silica sand.
2. Save water and power from backwashing.
3. Longer operation life than silica sand due to higher attrition strength.
4. Significantly improves water clarity compared to the performance of silica sand.
5. Removes finer impurities than equivalent grade of silica sand.
6. Cost-effective, a direct replacement for silica sand.
7. Suitable for commercial potable water treatment, commercial rapid-rate re-use water filters, waste water treatment and sewage treatment (lattice structure ideal for biological control).

EXPERIENCE ULTIMATE POOL FILTRATION

Benefits of Perlite Filter Media

- 1. High Filtration Efficiency:** Perlite forms a porous, permeable, and rigid lattice structure that effectively traps solid particles while allowing for fast flow rates and brilliant clarity.
- 2. Wide Permeability Range:** Perlite offers a wide range of permeability, making it suitable for different filtration needs.
- 3. Minimal Cake Cracking:** The filter cake formed by perlite is less prone to cracking, which helps maintain consistent filtration performance.
- 4. Sterile and Inert Nature:** Perlite is sterile and inert, ensuring that it does not react with the filtered water or introduce any contaminants.
- 5. Compliance with Regulations:** Perlite filter aids satisfy the US Food Codex and relevant EU regulations, making them suitable for use in various applications.

SELECTOR VALVE AND ACCESSORIES

Multiport Valve

EASY-TO-OPERATE LEVER HANDLE

Emaux Valves are produced in versions for Top Mount and Side Mount filter designs, and are made of ABS material with heavy duty plastic handle. Depending on filter type, 4-way and 6-way models are available for operating functions to cover all the necessary operations needed in any swimming pools filtration.

Product Features:

- 1. 100% tested for pressure and watertightness
- 2. Easy installation, maintenance, and servicing
- 3. Made of sturdy ABS and marine-grade stainless steel
- 4. Designed for superior durability
- 5. Commercial multiport valves are cost efficient and space-saving compared to the butterfly valve manifolds

6-Way Multiport Valve

Functions : 4-Way Multiport Valve

Filter	Backwash	Rinse	Closed
Normal Filtration	Cleaning Filter by reversing the flow	Used after backwash to flush dirt from valve	Shuts off all flow to filter or pool

Functions : 6-Way Multiport Valve

Filter	Backwash	Rinse	Waste	Recirculate	Closed
Normal Filtration	Cleaning Filter by reversing the flow	Used after backwash to flush dirt from valve	By-passes filter, used for vacuuming to waste outlet or lowering water level	By-passes filter for circulating water to pool	Shuts off all flow to filter or pool

Top Mount Multiport Valve

1 inch 6-Way Top Mount Valve (MPV06)

For Top Mount Deep Bed Filters / Emaux HD Series Deep Bed Filters

FLEX Valve Actuator

AUTOMATION WITH HIGH FLEXIBILITY

Emaux FLEX Valve Actuator is a universal 24-Volt actuator that can work with other manufacturers' automatic controls on 2-way and 3-way valves. Adjustable cam gives high flexibility for accurate positioning. Slim design with corrosion-proof casing. When paired with Emaux FLEX 2-way and 3-way valves, it provides the user with reliable automation over valve control.

FLEX Valve Actuator

Product Features:

- 1. Design for reliable control of 2-way and 3-way diverter valves for pool, spa, and water features.
- 2. Automatic adjustment of water flow.
- 3. Compatible with most of the pool automatic control systems.

Valve Actuator Material
PC

Voltage
24V AC

Cable Length
6m (18ft)

Advantages:

Compatibility

Universal design is compatible with other manufacturers' automatic controls and valves.

Friendly & Modern design

- 1. Easy to assemble and set up.
- 2. IPX4 corrosion-proof casing

Flexibility

- 1. The cam is adjustable at every 12.8 degrees.
- 2. Customized water flow control.

Product Dimensions:

Product Information:

Code	Model	Voltage	Cycles	Wire	Cable Length
91609013	FLEX -ACT	24V AC	50/60Hz	3-conductor Black (Common) Red (Switch Leg) White (Switch Leg)	6m (18ft)

FLEX Diverter Valve

REVOLUTIONARY DESIGN FOR PROFESSIONAL USE

Emaux FLEX diverter valve is a maintenance-free valve with an ergonomic design handle. The PTFE coating gasket gives high reliability and smoothes the turning torque for the valve. A new adjustable dial design offers a simple and flexible inlet selection. The shaft is compatible with actuators made by other manufacturers. When paired with the Emaux FLEX Actuator, it gives the user a reliable automated experience with the valve control.

Product Dimensions:

Advantages:

Flexibility and user-friendly

Adjustable dial for instant inlet switching.

Compatibility

Shaft is compatible with other manufacturers' actuators.

Maintenance-free

PTFE coating gasket:

- Lubricant-free
- Maintenance-free
- Jam-free

User experience

Ergonomic design handle promotes comfortable control.

Above-Ground Pool Gate Valve

For low pressure pool filtration or aquaculture systems

EASY TO INSTALL AND OPERATE

This push-pull knife gate valve is designed for low-pressure filtration or aquaculture systems. The compact size permits easy installation and removal making it perfect for small or mid size filtration systems. Two types of piping connections are available for adding into the piping without glue.

Shown with cartridge filter combo, NanoTech UV disinfection system, and hose connections

Product Information:

1. PVC with stainless steel shaft
2. Size: 1.5 inch
3. Operation pressure: 2 Bar
4. Connection: 32-38mm hose and 1.5" NPT thread

PUMPS

E-Power Variable Speed Pump

For large residential pools and water features

SAVES UP TO 85% ON ENERGY CONSUMPTION

Our E-Power Variable speed pump is a variable speed pump with high efficiency, low energy consumption, and quiet operation in mind. This pump is programmed with four different speed settings, each setting can be customized by the owner to operate their pump at the ideal RPM. One advantage of lowering the RPM is allowing the owner to circulate their pool with minimal energy consumption during the off-season. Furthermore, lowering the RPM also reduces stress for the connected filter and sanitation system, resulting in a significant saving for the pool owner.

E-POWER

Model : EPV150

SAA

Energy Saving

Emaux E-Power Variable Speed Pump reduces the energy use of your pool, spa, and water features. Thanks to its higher efficiency, it eliminates over-usage and reduces equipment maintenance costs.

The energy saving is achieved by programming the pump to reach the ideal flow rate schedule. As the pump speed is reduced, the water flow drops. A 50% reduction in speed cuts the flow rate by half, but at the same time reduces the power consumption by up to 85%.

Product Features:

1. Permanent Magnet Motor (PMM)
2. Totally Enclosed Fan Cooled (TEFC)
3. 5L Strainer Basket
4. 316 Stainless Steel Shaft
5. 316 Stainless Steel Mechanical Seal
6. 2"/2.5" Union Connection
7. IPX5 Waterproof

User-Friendly Controller

Emaux E-Power Variable Speed Pump maximizes the efficiency of your pool filtration system with the aid of a one-touch controller. The presettable direct speed controller enables pool owners to manage their usage with the press of a single button to schedule their water treatment system with peace of mind.

New Connectivity and External Smart Control

DOWNLOAD THE APP

SMART LIFE

IoT Connection:

An IoT version can be controlled and monitored over an internet connection, enabling users to manage pool functions remotely. This connectivity allows for real-time adjustments, automated scheduling, and enhanced efficiency in maintaining optimal water quality.

EMAUX PUMP

Multi-device connection:

The multi-device connection version allows multiple phones and devices to connect locally, enabling control and monitoring without requiring internet access.

Code	Description
40201031	3C 22AWG 7.62M 4PIN RS485 Modbus Harness Cable

Super Quiet Operation

With the advanced hydraulic design, water moves much more efficiently, and the operation is whisper quiet with the E-Power Variable Speed Pump operating at lower speeds. Permanent Magnet Motor technology eliminates excessive motor noise. E-Power Variable Speed Pump satisfies the most discerning user.

Super-Power Variable Speed Pump

For residential pools and water features

ULTRA ENERGY EFFICIENCY

Emaux Super-Power Variable Speed Pump reduces the energy use of your pool, spa, and water features. Thanks to its higher efficiency, it eliminates over-usage and reduces equipment maintenance costs. Compared to the Emaux Super-Power Variable speed pump, traditional single-speed pumps run continuously and inefficiently at maximum load incurring high running costs. Reduced speed provides slower water circulation rates and puts less strain on the complete installation such as filter, sanitization, and plumbing. It reduces the wear-and-tear factor ending in significant savings for the pool owner.

SUPERPOWER

Model: SPV150

Motor Advantages

Emaux Super-Power Variable Speed Pump uses the latest Permanent Magnet Motor (PMM) technology, which produces a magnetic field between the rotor and windings. The energy-saving is derived from the ability to reduce the RPM of the motor itself. A standard motor consumes electricity to induce the magnetic field into the rotor. On the other hand, a permanent magnet motor gains efficiency by the magnets working on spinning the rotor, achieving an energy cost saving of up to 80%.

The design of (Totally Enclosed Fan Cooled) TEFC Motor also increases the reliability and durability for use in all weather conditions. The AISI316 stainless steel motor shaft and shaft seal also ensure reliability and compatibility with saltwater pools.

With Advanced Menu

One touch controller - total control at your finger tips. Pre-set speed programs and schedules, offer the most efficient pool, spa, or any connected water feature.

Product Features:

1. Permanent Magnet Motor (PMM), Totally Enclosed Fan Cooled (TEFC)
2. Pump casing ABS + glass fiber, Impeller PPO, Strainer basket and base in PP + Glass fiber
3. Motor shaft - S.S.316, Seals bellows - EPDM, stationary face - SIC, rotating face - Graphite, Spring - S.S.316
4. Super quiet operation when running at low RPM mode (55dB@1400 RPM)
5. Designed and constructed to maximize the pump's hydraulic performance
6. IPX5 Waterproof

EMAUX PUMP

Super-Power Variable Speed Pump

For residential pools and spa

PRODUCTIVE AND DEPENDABLE

The Emaux New SuperPower Variable-Speed Pump features an innovative pump body design paired with a high-performance motor has a high efficiency of up to 86% surpassing industry standards, providing a more efficient and reliable solution for pools and spas. Its noise reduction design and optimizes water flow that delivering for enhanced performance. The New SuperPower Variable-Speed Pump is engineered for easy, hassle-free installation, streamlining the process and saving you time and effort. The new base design makes it ideal for retrofitting into existing pool systems, offering a convenient upgrade option for pool owners.

2-Speed Pump

Super Power 2-speed pump represents a breakthrough in pool pump technology. The user is able to select either HIGH speed (2850rpm) or LOW speed (1450rpm) on the pump's control pad. The LOW speed feature offers low energy consumption, low noise level, and a longer lifespan of the product.

- 2-speed models: Dual capacitors motor start wiring
- Handy control pad to select High or Low speed.

E-Turbo Variable Speed Pump

For residential pool and water features

INNOVATIVE AND HIGH PERFORMANCE

The Emaux E-Turbo variable speed pump is a cutting-edge product that combines efficiency and reliability. It features a unique back cover design that reduces noise, increases durability and prevents electric shocks. It also has a superior cooling system that extends the life of the pump and ensures optimal performance in challenging conditions. The removable panel offers easy installation and access to controls, making maintenance and adjustments simple and convenient. The membrane keypad has large keys that are easy to find and press accurately.

Model : ETV125

Optional Accessories

Code	4201210356
------	------------

Retro-Fit Replacement

Precise alignment with plumbing position, making it easy to replace *Astralpool SENA*.

With Adjustable base: ESPA Silen & Astralpool Victoria Plus.

Motor Advantages

The PMSM motor has an integrated PCB design, reducing the motor size by 20%. This allows the pump to achieve a streamlined and concise design. The motor has a high efficiency of up to 86%, surpassing industry standards. The rotor is specially designed (Patent) and processed to not only improve the reliability, but also enhance its stability, ensuring quiet and smooth operation.

Detachable Smart Control Panel

- LCD with backlight offers good visibility even in low-light conditions.
- Simple and clear indication on the screen.
- User- friendly interface.
- Large key membrane provides good tic tac feeling, easy to press.

Detachable panel allow wall mounting

Robust Structure Design:

Resistant to suction pressure and damage. It is made of durable materials that can handle the tough chemicals and water conditions that are common in pool systems, delivering consistent and reliable performance for a long time.

Basket:

Enlarged 3-Litre Strainer

Close Bottom Basket:

The enclosed bottom basket allows to capture of small heavy waste which condenses at the bottom.

Special Hole Design:

Ensures optimal water flow and debris filtration. The holes are uniformly sized at 3mm, which allows water to pass through smoothly while trapping larger debris.

Bonus filter bag:

Protect the pump with a bonus nylon filter bag. This accessory can catch hair, fine leaves and other small debris that could damage the impellor. By using the filter bag, you can extend the lifespan of your pump and keep it running smoothly.

E-Turbo Pump

For residential pools and spas

EFFICIENT AND RELIABLE

Emaux new E-Turbo single-speed pump combination of new pump body design and Emaux high performance motor, offer a more efficient and reliable solution for pool and spa. Noise reduction design and optimize water flow that delivering optimal performance. Emaux E-Turbo single-speed pump is designed for easy and hassle-free installation. This ensures a smooth and efficient installation process, saving time and effort. New design base to make the pump suitable for retrofitting into existing pool systems, providing an upgrade option for pool owners.

Product Features:

1. Direct replacement for other model pumps
2. Motor Insulation Class F
3. Thermal or over current protection
4. IPX5 Waterproof
5. Asynchronous, two poles motor
5. Self Priming up to 3.5 m above water level
6. Feasible union design for both imperial and metric standard
7. Basket volume 3 L

E-Turbo Pro Pump NEW

For residential pools and spas

EFFICIENT AND RELIABLE

The new Emaux E-Turbo PRO single-speed pump combines an innovative hydraulic design with a high-performance motor to deliver a superior efficiency and reliability solution for pools and spas. Its optimized 2-inch suction maximize water flow and significantly reduce energy consumption. Featuring advanced noise reduction technology, the pump operates quietly while delivering powerful, hydraulically balanced performance. Designed for effortless integration, the E-Turbo PRO allows for simple, hassle-free installation and is engineered with a universal base for easy retrofitting into existing systems, providing a straightforward upgrade for any pool owner.

EcoWave Variable Speed Pump

NEW

For residential pools and spas

86% EFFICIENT. EFFORTLESS TO RUN

Emaux EcoWave variable speed pumps revolutionize pool operation: Slash energy costs, achieve superior efficiency (up to 86%), and exceed standards. Through an innovative pump body design providing enhanced self-priming, paired with a high-performance motor, easily installed for a user-friendly experience. Simplify maintenance while gaining optimized flow, proven reliability, and significant savings—ideal for both new builds and existing pools & spas.

EcoWave
Variable Speed PUMP

Special Design for EcoWave Variable Speed Pump

Precise alignment with plumbing position, making it easy to replace the Kripsol Koral KSE

User-Friendly smart control panel

Enhanced self-priming through an innovative pump body design

Product Features:

1. Self-priming up to 3.3m above water level
2. Feasible union design for both imperial and metric standard
3. Robust suction-resistant filter basket with specially designed filter holes
4. Direct replacement for other model pumps
5. Class insulation Class F
6. Thermal or over current protection
7. IPX5 Waterproof Standard
8. Basket volume 3L

New Connectivity and External Smart Control

DOWNLOAD THE APP SMART LIFE

IoT Connection:

An IoT version can be controlled and monitored over an internet connection, enabling users to manage pool functions remotely. This connectivity allows for real-time adjustments, automated scheduling, and enhanced efficiency in maintaining optimal water quality.

EcoWave Single Speed Pump

For residential pools and spas

EcoWave PUMP

INNOVATIVE AND DEPENDABLE

The Emaux EcoWave Single-Speed Pump combines an innovative pump body design with Emaux's high-performance motor to deliver a more efficient and reliable solution for pools and spas. The pump housing is crafted from high-strength plastic, resistant to both high and low temperatures, ensuring long-lasting durability. Enhanced noise reduction features and optimized hydrodynamics work together to maximize performance while minimizing operational disruptions. Its adaptable design enables seamless retrofitting into existing pool systems, offering a cost-effective upgrade path for pool owners seeking modern performance without the need for a complete infrastructure overhaul.

Product Features:

1. Self-priming up to 3.5m above water level

2. Feasible union design for both imperial and metric standard

3. Basket volume 3L

4. Robust suction-resistant filter basket with specially designed filter holes

5. Direct replacement for other model pumps

6. Class insulation Class F
7. Thermal or over current protection

8. IPX5 Waterproof Standard

9. Asynchronous, two-pole motor

10. Precise alignment with plumbing position, making it easy to replace the Kripsol Koral KSE

EcoFlow Single Speed Pump

NEW

For residential pools and spas

EcoFLOW
PUMP

HIGH PERFORMANCE & SAVE ENERGY

The Emaux EcoFlow Single-Speed Pump merges enhanced self-priming, a durable high-strength polymer housing, and noise reduction for quiet, efficient pool/spa operation. Optimized fluid dynamics maximize water flow with minimal energy, cutting runtime and electricity costs. It integrates seamlessly into existing systems, eliminating costly upgrades. Energy-efficient performance reduces power use and maintenance, saving time and money. Combining durability, adaptability, and quiet operation, the EcoFlow offers a cost-effective upgrade for modernizing pools effortlessly.

Product Features:

1. Self-priming up to 3.5m above water level
2. Feasible union design for both imperial and metric standard
3. Basket volume 2L
4. Robust suction-resistant filter basket with specially designed filter holes
5. Direct replacement for other model pumps
6. Class insulation Class F
7. Thermal or over current protection
8. IPX5 Waterproof Standard
9. Asynchronous, two-pole motor
10. Precise alignment with plumbing position, making it easy to replace the Astralpool CTX

EcoFlow Variable Speed Pump

For residential pools and spas

HIGH PERFORMANCE & SAVE ENERGY

Emaux EcoFlow variable speed pumps combine an innovative pump design with a high-performance motor to reduce energy costs compared to less efficient single-speed pumps, achieving superior efficiency up to 86% and exceeding industry standards. Easy installation and a user-friendly experience simplify pool maintenance. This core combination delivers unmatched performance, reliability, optimized water flow, and energy savings for both new and existing pools and spas.

SB & SR Series Pumps

For residential pools and spas

PROVEN LONG-TERM DURABILITY

The SB Series pump delivers high flow and energy efficiency ultra performance. 2-inch suction and discharge port with a transparent lid. Ring lock seal design to eliminate suction leaks and to maximize suction efficiency.

The SR Series pump is the right choice for both high and medium head installation in commercial spa pools. The seal and bearing used are imported from trustable suppliers to ensure reliable quality. It delivers high flow and energy efficiency ultra performance.

SR Series Pump

SB Series Pump

Product Features:

1. 2 inch suction and discharge ports
2. Ring-lock lid eliminates leaks and maximizes suction efficiency
3. Asynchronous, two-pole motor
4. Motor Insulation Class B
5. IPX5 Waterproof
6. Built-in thermal protection
7. Overload protection
8. Available in 50Hz or 60Hz for 230V/400V
9. Specially designed unions compatible for both Imperial and Metric standards
10. Testing Pressure (50 psi/ 3.5Bar)
11. 316 stainless steel shaft
12. 316 stainless steel mechanical seal

Only SB Series Pump is C-Tick and SASO certified

E-Force Series Pump

For the medium size residential pools

VALUE FOR TRUSTED PERFORMANCE

The E-Force pump operates quietly and is highly energy-efficient. Its 2-inch suction enhancement boosts performance. Featuring a unique ring lock nut design, it is easy to maintain. With low decibel levels and minimal energy consumption, it requires very little upkeep.

Product Features:

1. 1.5 & 2 inch suction and discharge port with transparent lid
2. Asynchronous, Two poles motor
3. Class insulation: 130(B)
4. IPX5 Waterproof standard
5. Built-in thermal protection
6. Overload protection
7. External heat sink
8. Available in 50Hz or 60Hz with 220V/110V
9. Special design union compatible for both Imperial and Metric measurement standard
10. S.S. 316 Shaft
11. S.S. 316 Mechanical seal
12. Self-Priming up to 2m above water level
13. Testing Pressure 50PSI (3.5 Bar)
14. Basket Volume 2.5 litres

All-Star Series Pump

Specially designed for above-ground pool

ROBUST PUMPS FOR ABOVE-GROUND POOLS

The Emaux All-Star series pump is specifically designed as a superior pump for above-ground pools. Heavy duty construction and advanced engineering deliver high flow performance and reliability. It offers a powerful, quiet, and a long operational lifespan.

Features:

1. Includes a motor shroud for Canada versions and a mounting base. All components are molded in corrosion-proof reinforced thermoplastic for superior strength and reliability.
2. Easy access discharge port allows conversion from vertical to horizontal discharge orientation.
3. 1.5" PVC pipe union or NPT thread to 1.25" - 1.5" hose band adaptor for quick inlet/outlet hose connection.
4. Large debris basket with see-through lid reduces cleaning frequency. Twist-Lock lid design enables hassle-free access to the basket.
5. Optimal volute and impeller design provides an excellent hydraulic performance.
6. Suitable for in-ground pools: self-priming vertical lift up to 5ft (1.5 metres).
7. Super quiet operation especially for dual-speed models.
8. Heavy duty high performance motor with automatic thermal overload protection.

SS Series Pump

For the small size residential pools or above-ground pools

THE BEST OPTION FOR SMALLER PLUMBING

The SS pump is quiet running and energy efficient. 1.5-inch suction and discharge port with a transparent lid. It operates at a low decibel and energy consumption which requires minimal maintenance.

Additional features for timer option

1. The SS Series pump offers an optional built-in timer that allows the user to quickly set up the pump's running schedule on a user-friendly control pad.
2. Set up the ideal switch-on time and the run-time ranging from 2 hours a day to 24 hours.
3. Battery backup memory up to 72 hours.

Remark: The performance curve above is for 50Hz models

SD & ST Series Pumps

For above-ground pools (SD Series) and portable spas (ST Series)

QUIET OPERATION AND EASY INSTALLATION

SD and ST Series Pump has the option to have the pre-filter disassembled which allows users a greater degree of applications. 1.5-inch suction and discharge port with a transparent lid. It operates at a low decibel and energy consumption which requires minimal maintenance.

Only ST Series Pump is SAA certified

Product Features:

1. 1.5 inch suction and discharge ports
2. Asynchronous, two-pole motor
3. Motor Insulation Class B
4. IPX5 Waterproof
5. Built-in thermal protection
6. External heat sink
7. Transparent lid (SD Series)
8. Available in 50Hz or 60Hz for 230V/110V
9. Specially designed unions compatible for both Imperial and Metric standards
10. 316 stainless steel shaft
11. 316 stainless steel mechanical seal
12. Low noise level, low energy and easy maintenance

Aqua-Mini Pump

For above-ground pools, optional built-in timer

LOW RUNNING COST AND NOISE LEVEL

Aqua-Mini pump is specially designed for the above-ground swimming pool. Attached with a pre-filter and a transparent lid, it is easy to maintain. A Timer is also available for users who prefer minimal monitoring. Once the users have set a start time and duration period, the pump will start and operate accordingly every day.

Timer option

SAA

Product Features:

1. Pump body with pre-filter and rotating transparent lid for easy installation and maintenance
2. Supplied with union connectors and flexible hose adaptors
3. Timer option is available
4. Asynchronous, Two poles
5. Motor Insulation Class B
6. IPX5 Waterproof
7. Built-in thermal protection
8. External heat sink
9. Available in 50Hz or 60Hz for 230V/110V
10. Specially designed unions are compatible for both imperial and metric standards
11. Low noise level, low energy and easy maintenance

Hydrau-Power Commercial Pump

For commercial pools, aquatic parks, and seawater facilities

EXCELLENT HYDRAULIC EFFICIENCY UP TO 91%

The Emaux Hydrau-Power pump is a series of powerful and robust pumps engineered for applications requiring high flow capability and efficiency. The pump is constructed with high impact corrosion resistant thermoplastics and equipped with a large capacity strainer. The Hydrau-Power pump is suitable for a variety of applications including all types of commercial pools, aquatic parks, and seawater facilities.

13L/30L
Strainer Basket

Francis-Vane
Impeller

IE 3 Class
Motor

Product Features:

1. High volume self-priming thermoplastic pump ideal for large filtration systems
2. Proven hydraulic efficiency up to 91%
3. Premium Efficiency IE3 Class Motor (compliance IEC 60034-30)
4. Francis-vane impeller allows for broadband efficiency and large flow range
5. Smooth throat volute design facilitates the high work efficiency
6. The operating frequency can be controlled externally by Variable Frequency Drive (VFD)
7. Fiber reinforced plastic casing provides substantial temperature, pressure, vibration and impact performance
8. Secondary seal chamber prevents water leakage and acts as a vapour blocker to the motor
9. Large suction-side detachable strainer capacity in 13 and 30 Liter
10. Low noise level up to 68dB
11. IPX5 Waterproof

Ultra-power Commercial Pump

For commercial pools, spas, aquatic parks, and seawater facilities

SUPREME PERFORMANCE SELF-PRIMING PUMP

Ultra-Power is a series of high-performance pumps designed to achieve the highest flows among similar pumps on the market. By utilizing state-of-the-art engineering, the one-piece molded pump body with a large capacity 8-liter strainer basket makes it unique among all comparable pumps. Built with corrosion and chemical resistant glass-reinforced thermoplastic and superior seawater graded mechanical seal guarantee a long working life.

Product Video

Outstanding Hydraulic Performance. Highest Efficiency up to 80%

The Ultra-Power pump is Emaux's first commercial pump with a 3" union to achieve the hydraulic performance of more than 45 m³/h at 18m of head (7hp model). With a wide selection of power options (from 4, 5.5, 7hp) available in 3-phase motor, it becomes one of the most efficient and energy-saving solution for various range of the commercial pool and seawater facilities.

SWP Series Corrosion Resistant FRP Pump

For seawater & water with corrosive compounds applications

STRONG RESISTANCE TO CORROSIVE LIQUIDS

SWP Series Pump combines materials and manufacturing technology to provide strong resistance to corrosive liquids and the reliability to work under extreme environments.

The SWP pump is a Single Stage, End Suction, Horizontal Centrifugal Pump, designed to ISO 5199-2002 Standards for Chemical Process Pumps. The pumps are designed with vertical centerline discharge and back pull-out construction. All wet parts are corrosion resistant and non-metallic.

Product Features:

1. Compliance with European DIN Standard
2. Smooth hydraulic passages to increase pump efficiency
3. Tapered polygon impeller provides high capacity and greater efficiency
4. Externally adjustable impeller clearance provides ease of maintenance and maximum efficiency
5. All wet parts in either Vinyl or Ester Epoxy Resin provide better chemical resistance
6. Bolts through casing ensure O-ring seal integrity under all hydraulic operating conditions
7. Integral shaft sleeve design protects the pump shaft from exposure to fluids
8. Large Swedish made SKF bearings ensure long operation life
9. Heavy-duty shaft minimizes deflection to maximize mechanical seal life
10. External type AISI-316L mechanical seal for highly corrosive fluids, static and rotating ring in SiC and Spring
11. Polyester thermosetting powder coated power frame construction prevent external corrosion
12. Coupled to ABB Motor. Optional earthing rings or insulated bearings prevent bearing erosion when installing with VFD for the electric motor speed control.
13. IPX5 Waterproof

Advantage on Design

Compared with Stainless Steel, Fiberglass has better anti-corrosion effects.

Mechanical Seal with Internal Cool Down and Clean Up Channel

High Efficient Impeller

High Efficient SKF Ball Bearings provide longer life compared with conventional Ball Bearings

External type AISI-316L mechanical seal for highly corrosive fluids, static and rotating rings in SiC, spring and Polyester thermosetting powder coated power frame construction to prevent external corrosion.

316 L Stainless Steel with corrosion resistance

Double Row Ball Bearings enhance efficiency and provide power savings to extend product life

SE Series Commercial Iron Pump

For fresh water commercial pools

HEAVY DUTY APPLICATIONS

SE Series Commercial Iron Pump build to cater commercial usage (e.g Large-size swimming pool, spa pool, water feature, etc). Cast iron body with easy to clean large strainer basket. Stainless Steel or Metal Impellers options are available to match your need, range from 5.5 hp to 15 hp, suitable for heavy-duty commercial usage (e.g. Large size swimming pool, commercial spa pools and water features). Renowned ABB motor is used to ensure quiet and stable operation.

**AISI-304
Stainless Steel Impeller**

Product Features:

1. Cast iron body with AISI-304 stainless basket
2. Optional AISI-304 stainless steel or cast iron impellers depending on requirement.
3. Asynchronous, two-pole motor
4. Motor Insulation Class B
5. IPX5 Waterproof
6. Available in 400V/50Hz
7. Testing Pressure 50 psi (3.5 Bar)
8. Basket Volume 5 litres

Technical Information

Remark: The performance curve above is for 50Hz, 2850rpm models

Basket Strainer

For swimming pools, aquatic parks, aquariums & zoos, and water treatment

STOPS LARGE SOLIDS

Commercial basket strainer is designed to be installed with the Emaux SWP Series FRP Pump for the best performance of the water circulation system. The basket strainers are suitable for both saltwater and freshwater systems.

A ROBUST AND DURABLE PRE-FILTER

The strainer comes with a heavy-duty PP basket that acts as a pre-filter for the protection of the pumps, meters, and valves. It is typically installed prior to the pump to catch large, solid impurities.

WBR Series Spa Pump

Connects to different kinds of bath tub & spa

EFFICIENT PERFORMANCE & SUPERIOR RELIABILITY

The Emaux WBR Series Spa Pump is designed for durability and efficiency, crafted from high-quality materials to ensure reliability in any spa setting. This pump not only offers exceptional functionality but also adds a touch of style to your setup. With a straightforward installation process and intuitive controls, you can easily customize your experience to suit your needs.

Product Features:

1. Motor insulation rated Class B
2. IPX5 Waterproof standard
3. Built-in thermal protection
4. 316 stainless steel mechanical seal
5. High-temperature designs suitable for up to 50°C

SPR Series Spa Pump

Connects to different kinds of bath tub & spa

EFFORTLESS EFFICIENCY & ULTIMATE FUNCTIONALITY

The Emaux SPR Series pump is built for durability and efficiency, constructed with high-quality materials, making it a reliable addition to any spa while providing both functionality and style. Its easy installation process and user-friendly controls allow you to customize your experience effortlessly.

Product Features:

1. Motor insulation rated Class B

2. IPX5 Waterproof standard

3. Built-in thermal protection
4. 316 stainless steel mechanical seal

5. High-temperature designs suitable for up to 50°C

ABR Series Air Blower

Connects to different kinds of bath tub & spa

COMPACT DESIGN & MAXIMUM EFFICIENCY

The Emaux ABR Series Air Blower is a cutting-edge solution designed to elevate your spa and pool experience. Engineered for powerful performance, this air blower delivers consistent, high-volume airflow, ensuring optimal operation for your spa and enhancing the overall relaxation experience. Its compact design allows for easy installation, making it a versatile choice for both residential and commercial settings. Built with high-quality materials, it ensures durability and longevity, making it a reliable addition to your spa system.

Product Features:

1. Motor insulation rated Class B
2. Pneumatic control available
3. Built-in thermal protection
4. Blower protection made of reinforced ABS specially resistant to high temperatures
5. Compatible with numerous spa brands

DISINFECTION SYSTEM

CyberSync Series Pool Station

For modern residential pools

NEXT-GEN UX DESIGN FOR ADVANCED POOL MANAGEMENT

The CyberSync Pool Station collects real-time swimming pool data, including pH, ORP, salinity, and temperature, while controlling a complete range of pool equipment such as pumps, chlorinators, lighting, heating, and more. It supports scheduling and automation for effortless maintenance.

Monitor and control your pool system
remotely via an internet connection

CE CB SAA
IPX4 RoHS COMPLIANT

The CyberSync automation system can fully control the following products:

Pump

Chemical
Control

UV Light

Dosing

Light

Heater

SMART SYSTEMS FOR SUPERIOR WATER QUALITY

The advanced IoT-enabled pool monitoring system enhances your pool maintenance experience. Seamlessly connecting to the Smart Life app, it allows real-time monitoring to achieve optimal water conditions and vibrant effects. The system intelligently responds to sensor readings, automatically controlling your pool pump, disinfection system, and other equipment for the best water quality and safety. The Smart Life app also offers robust scheduling and automation, enabling effortless pool management from anywhere. Experience a smarter, more efficient way to maintain your pool with the Smart Life app.

CyberSync Series Salt Chlorinator

NEW

For residential and semi-commercial pools

INTELLIGENT WATER DISINFECTION SYSTEM

The CyberSync Salt Chlorinator marks a major upgrade. Its low-salt operation (1000 ppm) leverages advanced electrolyzer technology to deliver extremely soft water. Salt levels are so low they're almost imperceptible, significantly reducing skin, eye (especially for sensitive individuals), and hair irritation. Skin won't feel tight or sticky after swimming. It integrates seamlessly with the Smart Life app for real-time monitoring to ensure optimal water quality. This advanced IoT pool system improves maintenance efficiency with its modern, user-friendly interface and powerful protection programs designed for various operating environments.

SSCone Salt Chlorinator

For residential and semi-commercial pools

AUTOMATIC SALT CHLORINATOR WITH PH CONTROL & DOSING

Salt chlorinated pools are among the best to enjoy and offer comfortable bathing, but such systems tend to raise pH. The Emaux SSC-one takes the guesswork out of adding the chemicals: its dosing pump injects acid to automatically maintain the correct pH level, and its cell takes care of the chlorine production. Programmed automatically and using the best quality of salt, no harmful by-products are produced. One of the most technically advanced and user friendly salt water chlorinators on the market.

Titanium cell with
2 meters cable

Product Features:

1. Timer for pump and programmable cell control.
2. Direct power function.
3. Boost button for super chlorination at 100% power for 24 hours.
4. Visual pH reading, and easy set-up.
5. Capacitive touch buttons control panel.
6. Switch reverse polarity at every 4 or 8 or 12 hours to minimise cell scaling depending on water hardness.
7. Fully automatic or manual operation.
8. Winter mode reduces power to 50%.

Product Dimensions

Technical Information

Code	Model	Input Voltage/ Frequency	Salt Level	Cell Output	Maximum Pool Size	Cell Connections
9130012	SSCone	220-240V / 50-60Hz	2500ppm	Up to 50gr/hr	Up to 150,000 Liters	1.5" / 50mm or 2" / 63mm

One-Touch Multi-Functional Chlorinator

① A. INNOVATIVE TOUCH PANEL

- Intuitive and visual touch panel with LED indications

B. INTELLIGENT ALERT

- No flow detection
- Low salt alarm
- Cell lifetime alarm
- High heat sink temperature alarm
- pH dosing error

② INTUITIVE MODES

- Automatic or manual mode
- Switch the polarity according to the water hardness
- Winter mode

③ POWER

- Visual and easy reading power output
- Control the chlorine production
- Boost button, sets the system in super chlorination, 100% power for 24 hours

④ TIME

- Easy and intuitive operating system
- Timer for pump and cell programming control
- Two different schedules per day

⑤ PH

- Visual pH reading, and easy set-up.
- Two different indications: current pH and set point
- Automatic control of the pH dosing pump

Superior SSC Series Salt Chlorinator

For residential and semi-commercial pools

NEEDS MINIMUM MAINTENANCE

The Superior SSC represents a significant product upgrade that consolidates many years of design and user experience with salt chlorination. The power supply controller arrives in a fresh and modern design offering a more user-friendly interface together with advanced system protection programs to deal with a wide variety of operating environments. The Superior SSC is an ultimate robust and reliable salt chlorinator for residential pools and semi-commercial pools.

Titanium cell with 2 meters cable

Product Features:

1. Three models for different pool sizes: 15, 25, 45g/hr
2. Improved user interface and system status indication
3. Adopts higher operation temperature with upgraded electronic components
4. Programmed for high-temperature protection to prevent system overheating due to high salt level or high ambient temperature
5. Monitors and controls cell output current to prevent overloading and temperature rise
6. Simple display of error messages for easy service:
 - Controller overheating
 - The thermal sensor cable is disconnected
 - AC line fault or fuse is broken.
7. Self-cleaning reverse polarity
8. Quality titanium cells
9. Models with time clock and/or pool light transformer is available

Installation Diagram

Below is the basic diagram of installation for a salt chlorinated pool.

SSC Series Salt Chlorinator

For residential and semi-commercial pools

VARIOUS MODELS FOR DIFFERENT SIZE OF POOL

Salt chlorination is a method of sanitizing swimming pools with chlorine generated by electrolysis. The electrolysis is achieved by passing the saltwater solution through a weak electric charge in an electrolytic cell, which converts sodium chloride (salt) in the water into chlorine gas. The gas is dissolved in the water and becomes sodium hypochlorite (liquid chlorine).

SAA

Advantages

Safe and environmentally friendly:

Relaxation: Your pool is automatically disinfected

Safety: Significant reduction in the need to store and handle chlorine

Health and well-being: Saltwater does not irritate the eyes and dries out skin

Technical Information

Code 220V/50Hz	Model	Description	Salt Level (ppm)	Cell Output (gram/h)	Fiberglass Pool (L)	Concrete Pool (L)	Pool Light Voltage	Input Voltage /Freq	IP Rating	Weight (kg)

SSCmini & SSCmini - FW Salt Chlorinator NEW

For modest residential pools

ENGINEERED FOR LOW SALT BUILT FOR EASE

The New SSC-mini-FW Series Salt Chlorinators provide effortless, low-salt chlorination for residential pools. Choose the SSCmini-FW for pools up to 50,000 liters or the SSC-mini for pools up to 90,000 liters. Both models are designed for ease, featuring an intuitive interface and premium components that guarantee simple setup and smooth operation. Enjoy virtually maintenance-free water clarity and discover unbeatable value.

Features:

1. Easy to install, maintain and replace
2. Minimum piping modifications for existing installations
3. Maximum working pressure: 2.5 bar
4. Long cell lifetime and economical spare parts available
5. Perfectly suited for magnesium salted pools
6. Affordable spare part
7. Low Salt (SSCmini-FW)

Cell composition:

1. Titanium plates for a maximum chlorine production of 15 gram/h (SSCmini-FW) and 20 gram/h (SSCmini)
2. Self-cleaning reverse polarity
3. Water flow and temperature sensors
4. Translucent casing with connections for 50 mm / 1 1/2" or 63 mm / 2" pipes

Product Information

Code	Model	Input Voltage/ Frequency	Salt Level	Cell Output	Maximum Pool Size	Cell Connections
9130011	SSCmini	220-240V / 50-60Hz	4000ppm	20gr/hr	90,000 Liters	1.5" / 50mm or 2" / 63mm
9130065	SSCmini-FW	220-240V / 50-60Hz	1000-2400ppm	15gr/hr	50,000 Liters	1.5" / 50mm or 2" / 63mm

SSCnano+ Salt Chlorinator

NEW

For Above and Inground Pool

COMPACT DESIGN & SUPERIOR CHLORINATION

The SSCnano+ is an innovative in-line salt chlorinator that seamlessly synchronizes with the pump. Offering 12 chlorine production modes, it provides complete control over the chlorination process. Integrated features like a water flow switch, salinity monitoring, and water temperature tracking enable responsive pool management.

Its innovative technology also includes a cell run-time meter. Enjoy the benefits of long cell life and reduced chemical usage, thanks to its efficient and environmentally friendly design. Compact and user-friendly, the SSCnano+ revolutionizes chlorine generation.

CE IPX4

Product Feature:

- Auto self cleaning reverse polarity
- Cell run-time meter
- Temperature sensor
- ON/OFF operation
- Water flow switch

Water Flow Switch

A minimum flow rate of 3 m³/hr is required to activate the water flow switch.

Installation Diagram

2 installation methods:

Material

PC / ABS

Operation Voltage

110 V - 240 V

Max. pool volume

100 m³ - 180 m³

Salt Level

2,800 to 4,500 ppm

Working Temperature

15 - 40 °C

Waterproof Standard

IPX4

Accessories & Power Supply:

Product Information

SSCnano Salt Chlorinator

For Above and Inground Pool

COMPACT AND SIMPLE INSTALLATION

Emaux SSCnano is simple to install, with basic plumbing and electrical connections, you can have the system up and running in no time. It is compact and easily fits for pool and spa. Compact design makes it can easily fit into tight spaces without compromising its functionality. The control is designed to be user-friendly, making it easy to set up and operate, allows you to adjust the chlorine production according to your specific needs. You can tailor the chlorine output to maintain the desired sanitization level for your pool or spa.

CE IPX4

Product Feature:

- ON/OFF operation
- Water flow switch
- Auto self cleaning reverse polarity
- Temperature sensor
- Long cell life

Ozo-Plus Ozone Generator

For pools & spas, water features, and biological filtration

STRONGEST DISINFECTANT AND OXIDISING AGENT

The Ozo-Plus is a very effective water disinfection and sanitation system, up to 3,000 times more powerful as a germicide than chlorine. Ozone not only can almost 100% kill of all bacteria, virus, and fungus in 0.05ppm without toxic residues, but also enhances the effectiveness of sand filter filtration to a crystal-clear water through direct oxidization and decomposition of organic waste. Ozone kills bacterial within 1-10 seconds by oxidative burst occurs over the cell wall during contact and cells die.

System Features:

1. Simple to install and easy to operate
2. Compact design suitable for installation in limited plant room space.

Advantages of using ozone in pool:

1. Reduces the use of chlorine or bromine by up to 90%
2. Highly effective against chlorine resistant pathogens, such as cryptosporidium & giardia
3. Reduces skin and eye irritation
4. Very low trihalomethanes levels
5. By flocculation effect, water clarity is significantly improved

How it works

The system consists of a corona discharge ozone generator and an automatic air dryer unit which can be used in combination to give ozone outputs from 4 – 8 g/h.

Ozone is produced when the air is passed over a ceramic dielectric ozone generating module containing a stainless steel electrode. The module is powered by a high voltage / high- frequency power board. Ozone is injected through a water-driven venturi, which ensures maximum safety against ozone gas leakage.

The air dryer unit contains twin desiccant dryer columns which are automatically heat regenerated controlled by a programmable relay system. When the air dryer system is used, the normal output of the generators is doubled.

Ozone Formation

Product Dimensions and Materials

1. Ozone Generator: mild steel epoxy coated cabinet
2. Cell: Ceramic Tube and 316SS Electrode
3. Air Dryer: mild steel epoxy coated cabinet
4. Dual desiccant array is designed to create negative pressure which is regenerated during heat exchange automatically

Ozone Plus Model	L x W x H	
	mm	inch
Ozone Generator	260 x 180 x 540	9 x 7.1 x 21.3
Air Dryer	390 x 180 x 540	15.4 x 7.1 x 21.3

Accessories:

Degassing system

Product Information

Code	System Model	Ozone Generator Unit	Air Dryer Unit	Ozone Output (g/h)	Air Flow (l/m)	Ozone Concentration (mg/l)	Maximum Pool Volume (m³)
931135798	OZG-4G	1	1	4	10-15	3.5-4.5	200
931135799	OZG-8G	2	1	8	25-30	3.5-4.5	400

Sacrificial Anode Shield

For pool and spa

PREVENT ELECTROLYTIC CORROSION OF POOL METAL

A zinc sacrificial anode provides a shield that protects bathers from the risk of electric shock, especially in fiberglass pools that lack metal bonding.

Equally, when saltwater chlorinator disinfection systems are used, it prevents electrolytic corrosion of metal pool parts such as stainless steel ladders, heat pump, heat exchangers, UV-C stainless steel casing, stainless steel lighting niches, and face rings, aluminum pump motor housings, and salt chlorinator titanium cell plates.

Main Features:

- 1. Easy installation design by adding inline to existing 63mm/2" piping system
- 2. Excellent electric shock prevention in fiberglass pools
- 3. 4 Bar working pressure
- 4. Long life pure zinc alloy anode
- 5. 1m 8 AWG solid copper wire and transparent lid for inspection

Product Information

Code	Model	Housing Material	Connection	A (mm)	B (mm)	C (mm)
91602701	DF50-1(E)	ABS & PVC	63mm	Φ63	129	190
91602702	DF50-1(A)	ABS & PVC	2"	Φ60	129	190

How it works

1. Sacrificial Anode Shield is designed to prevent other metals from eroding. This inline zinc anode is already secured in a PVC TEE ready for installation.
2. Once installed, the sacrificial anode will be consumed, instead of erosion / corrosion to other metal components surrounding the pool such as aluminum, stainless steel, cast iron, copper, and titanium.
3. The Sacrificial Anode Shield is tied into the pool bonding wire to protect the entire pool.
4. The anode should be replaced after half of it has been eroded, typically in about three years.

How to install

1. Cut pipe to size of the "TEE" shape shield
2. Glue "TEE" into pipe
3. Connect Copper wire to existing pump ground using split connector

Typical installation and location

The best location for installation of the shield is in the water pipe after the filter and before a pool heater, that would put it before the salt cell. Without a heater, the shield should be put after the filter and before the cell.

Nano Tech UV-C Disinfection System

For above-ground and residential pools water disinfection

4 models of Nano Tech Series:

NanoTech UV-C Standard

NanoTech UV-C Timer

NanoTech UV-C
With Amalgam Lamps and Flow Switch

NanoTech UV-C Ozone

1. NanoTech UV-C Standard

A non-chemical approach to water sanitization, precise and compact design, top performance.

2. NanoTech UV-C Timer

Standard model with a built-in timer to monitor UV lamp operating hours.

3. NanoTech UV-C With Amalgam Lamps and Flow Switch

The amalgam lamp offers virtually constant disinfection performance by its resistance to temperature fluctuations. A flow switch is included to cut off the power when overheating.

4. NanoTech UV-C Ozone

Enhance disinfection performance by combining UV-C technology with ozone production.

NanoTech UV-C ADVANTAGES

1. USER-FRIENDLY

Easy installation and maintenance. The optional timer can control the running operation hours

2. STRONG AND DURABLE

Robust housing in AISI 2205 Stainless Steel for anti-corrosion long life. Professional quality UV lamp offers a life time over 9,000 (to 12,000) hours.

3. HIGH EFFICIENCY

The mirror-polished interior of the housing increases the UV reflection rate and thus enhances the work efficiency by up to 35%.

4. HIGH TRANSMISSION

High-quality quartz sleeve ensures nearly 100% transmission of UV-C at 254nm. It offers protection against air and water flow, breakage, and temperature fluctuations.

Robust
Housing

Mirror-
Polished
Interior

Quartz
Sleeve

5. ENVIRONMENTAL-FRIENDLY

It reduces the chlorine consumption of up to 70%. Also water renewal is reduced due to fewer by-products formed

6. BETTER PROTECTION

The disinfected water is free of unpleasant smells and does not irritate the eyes, because of the significant reduction the number of chloramines. No risk of allergies, and your pool is protected against pathogenic organisms and algae.

SAA

Advantages of using UV-C for water disinfection

At a wavelength of 253.7nm, UV-C light is a very powerful germicide. It deactivates the DNA of bacteria, viruses and other pathogens, destroying their ability to multiply and cause disease.

Ultraviolet technology is a non-chemical approach to pool disinfection. In this method of disinfection, nothing is added which makes this process simple, inexpensive and requiring very low maintenance.

UV-C light is become increasingly favoured by the pool industry for its ability to break down and remove chloramines, which cause eye, skin and nose irritation, and breathing difficulties.

Nano Tech UV-C Standard

These UV systems combine all the benefits listed above in a very compact design. Another advantage is that the lamps are single ended and can be easily replaced.

Main Applications:

1. Residential swimming pools
2. Fish ponds
3. Drinking water

Code 230V	Code 120V	Model	Max.Flow Rate (m³/h)	Pool Vol (m³)	Input Power	Max. Pressure	Connections	Electric Ballast	Max. Current (A)	UV Lamp lifetime (hr.)
9130401	9130415	NT-UV16	7	15	16W	3 bar	1.5"/50mm or 2"/63mm	120-240V AC 50-60Hz	0.29	9,000
9130402	9130409	NT-UV40	20	40	40W	3 bar	1.5"/50mm or 2"/63mm	120-240V AC 50-60Hz	0.29	9,000
9130404	9130414	NT-UV75	25	75	75W	3 bar	1.5"/50mm or 2"/63mm	120-240V AC 50-60Hz	0.57	9,000

Nano Tech UV-C Timer

Emaux Nano Tech UV-C Timer includes an integrated TIMER which accurately monitors the operating hours of the UV-C lamp. You will be reminded when the lamp must be replaced.

Advantages of built-in timer

1. User-friendly control pad with time clock digital display
2. Built-in adjustable timer for the UV-C lamp
3. Digital alert when the lamp needs replacing

Note : "T" stands for Timer

Code 230V	Code 120V	Model	Max.Flow Rate (m³/h)	Pool Vol (m³)	Input Power	Max. Pressure	Connections	Electric Ballast	Max. Current (A)	UV Lamp lifetime (hr.)
9130403	9130411	NT-UV40-T	20	40	40W	3 bar	1.5"/50mm or 2"/63mm	120-240V AC	0.44(120V) 0.2(240V)	9,000
9130405	9130410	NT-UV75-T	25	75	75W	3 bar	1.5"/50mm or 2"/63mm	120-240V AC	0.82(120V) 0.38(240V)	9,000

Nano Tech UV-C With Amalgam Lamps and Flow Switch

Operating between low and medium pressure UV applications, NanoTech amalgam achieves a high relative power density operating in a broad temperature range. The amalgam version includes a flow switch which will cut-off the lamp power to protect the system from over-heating when the water flow is lower than required. Due to a special coating technology, NanoTech guarantees a continued performance of 85% after 12,000 hours operating in a broad temperature range. A timer version is available as an option.

Main Applications

1. Drinking water system
2. Waste water system
3. Process water treatment unit
4. Swimming pool & spa

Note : "F" stands for Flowswitch, "T" stands for Timer

Code 230V	Model	Max.Flow Rate (m³/h)	Pool Vol (m³)	Input Power	Max. Pressure	Connections	Electric Ballast	Max. Current (A)	UV Lamp lifetime (hr.)
9130407	NT-UV130F	30	130	130W	3 bar	1.5"/50mm or 2"/63mm	240V AC	0.95	12,000
9130408	NT-UV130TF	30	130	130W	3 bar	1.5"/50mm or 2"/63mm	240V AC	0.95	12,000

Nano Tech UV-C Ozone

Emaux Nano Tech UV-C Ozone combines UV-C technology with ozone production ensuring fresh and healthy pool water with the minimum use of chlorine.

Advantages

1. Built-in electronic pre-selector ensure a smooth power supply
2. Up to 35% more UV-C yield as a result of reflection
3. Reduces use of chlorine by up to 80%
4. Ozone UV-C lamp life 12,000 hours
5. Built-in timer for the UV-C lamp
6. Digital alert when the lamp needs replacing

Note : 'O' stands for Ozone, "T" stands for Timer

Code 230V	Model	Max Flow Rate (m³/h)	Pool Vol (m³)	Input Power	Maximum Pressure	Cell Connections	Electric Ballast	Max Current (A)	Ozone UV-C Lamp lifetime (hr.)
9130406	NT-UV87-T0	25	90	87W	3 bar	1.5"/50mm or 2"/63mm	240V AC 50-60Hz	0.5	12,000

UV-C Ozone Operation

The water is pumped into the unit through the reactor. Air is drawn through the venturi system into the unit via the air injector and flows through the quartz glass and the ozone UV-C lamp. The air enters the lamp and is charged with ozone molecules, then passes through the ball valve to be mixed with the water in the reactor.

Nano Tech MPUV Disinfection System

For commercial water disinfection and chloramine reduction

LOW COST HIGH UV EFFICIENCY

The NT-MPUV series of medium pressure ultraviolet units is designed for easy installation. The system provides a cost effective solution for disinfection and chloramine reduction in commercial pools.

Medium pressure UV systems are highly effective against highly infectious *Cryptosporidium parvum* and *Giardia lamblia* species which can exist in swimming pool water. These are virtually unaffected by the levels of chlorine used to sanitise swimming pools. As a direct result of its interaction with pollutants, the chlorine in a pool produces chloramines which cause eye and skin irritation and unpleasant odours.

Medium pressure UV systems reduce the side effects and produce a vastly improved water quality and atmospheric environment.

Main Features:

1. Substantial reduction in chloramines
2. Medium pressure UV lamps for maximum oxidation
3. Microprocessor control with data logging
4. Connects to building management systems
5. Automatic "Smartdrive" wiper system as standard
6. Simple lamp replacement
7. 316 L Stainless steel reactor vessel

Main Characteristics:

1. Easy to install with in-line vessel design
2. Higher UV efficiency
3. Typical UVT is 90% at 60 mJ/cm²
4. Lower power consumption

Technical Information and Dimensions

Controller

Note: UV intensity mJ/cm² requires a 4-20mA signal from a water flow rate measuring device (not supplied)

MEDIUM-PRESSURE (MP) AND LOW-PRESSURE (LP) UV LAMP

A medium-pressure (MP) UV lamp (400w-10000W) has higher sterilization efficiency and shorter sterilization time than a low-pressure (LP) lamp (below 320W).

MPUV lamp has wider wavelengths, illumination in the range of 200–400 nm, and is effective for the removal of bacteria, viruses, chloramines, chlorides, and trichloramine. So they are suitable for use in public swimming pools. The low-pressure UV lamp can only emit a single wavelength at 254 nm, limiting the field of use.

Also, the MPUV lamp greatly reduces the size of the UV reactor and the number of UV lamps used, so the volume is relatively small. In contrast, low-pressure (LP) UV lamps are longer in size as wattage increases, so a slightly higher power low-pressure UV system needs more place.

The control system of the MPUV lamp can automatically adjust the energy of the UV output, while that of the LPUV lamp cannot.

MP vs LP UV Lamp Comparison

MPUV lamp has wider wavelengths, illumination in the range of 200–400 nm, and is effective for the removal of bacteria, viruses, chloramines, chlorides, and trichloramine

FOS Series UV-C Disinfection System

For fish ponds and aquaculture

ACHIEVE UP TO 98% STERILIZATION RATE

FOS series UV-C disinfection system effectively destroys bacteria and other microbes that pass through the ultra-violet illuminated tube resulting in bacteria-free and purified water for your fish pond.

1. High-quality UV-C lamp achieves up to 98% sterilization rate
2. Long-life UV-C lamp has a long lifespan over 10,000 hours
3. High-quality quartz tube provides more than 99% transmittance rate

Product Features:

1. Adjustable brackets for easy and flexible installation
2. Available in 50Hz or 60Hz with 220V
3. Four models 15W, 25W, 30W and 55W for fish pond volumes up to 14m³

Typical Installation

CyberSync Series Dosing System

For measurement of the PH, Redox / ORP value

ACCURATE AND RELIABLE

The Emaux "CyberSync" Peristaltic Dosing Pump series is indeed a groundbreaking addition to pool maintenance technology. Designed for swimming pools ranging from 30m² to 150m², it offers three versions: Core-Pro, Core-Plus, and Core, with five different models to cater to various needs. Utilizing peristaltic technology, these pumps ensure precise and reliable dosing, keeping pools balanced and sanitized. The user-friendly control panel, chemical-resistant BTP tube, and durable shield enhance its dependability. Additionally, its wide voltage range (110V to 240V) simplifies installation across different electrical systems, making it an excellent choice for maintaining a crystal-clear pool.

CE CB SAA   IPX4 

Technical Overview:

Chemical Concentration:

Liquid Chlorine up to 30%
Muriatic acid up to 40%
Sulfuric acid up to 40%

Operating Voltage:	110-240V 50/60Hz
Max Dosing Rate:	3 L/hour
Consumption:	20 watt
Pressure:	1.5 bar [22 psi]
Strainer / injector Tube Size:	4 x 6 (mm) tube

Core-Pro Version

The Emaux CyberSync Core-Pro is an advanced peristaltic dosing pump designed for seamless automatic dosing. It integrates with Emaux pH or ORP probes, ensuring precise and comprehensive dosing automation. Additionally, it supports external connectivity for pump control, level probes, alarms, and other dosing pumps, offering a straightforward and complete automation solution for various dosing requirements. This makes it an excellent choice for maintaining optimal water quality with minimal manual intervention.

Model:	DP300-X
Display:	LCD (Dot Matrix)
Depoly Probe:	ORP or pH
External connection*:	Pump, Alarm, Level sensor

*Max power for external dosing pump: 50w

Core Version

Model: DP300

Display: LED

The Emaux CyberSync Core is indeed a versatile dosing solution designed for ease of use. It allows users to effortlessly adjust the dosing rate, ensuring precise control over chemical levels.

Code	Model	Pressure bar [psi]	Max dosing rate L/hour	Operating voltage v	Input power w
9130116	DP300	1.5 [22]	3	110-240	20

CORE-PLUS VERSION

The Emaux CyberSync Core-Plus is a fantastic solution for maintaining optimal pool chemistry! Its automatic dosing feature for ORP and pH control, along with the user-friendly LED display, makes it easy to monitor and adjust water quality in real-time. Whether you choose the ORP or pH version, this device ensures that your pool remains in perfect balance, providing a hassle-free experience for pool owners.

CTRL Series Solenoid Driven Metering Pump

For measurement of the PH, Redox / ORP value

HIGH-ACCURACY AUTOMATIC DOSING / MANUAL DOSING

CTRL4/CTRL7/CTRL20-PH/ORP has an automatic monitoring system that measures the PH value and Redox / ORP value of water through the relative voltage of probes and injects the chemicals to the required set-point. Digital metering pump with pH/Redox control meter on board. Adjustable manual control with proportional dosing flow rate for correct pH & Redox management.

CTRL4/CTRL7/CTRL20 series has a compact, clean design, easy to install and operate. Unlike the above models, it requires adjusting the chemical dosing manually.

CTRL4/CTRL7/
CTRL20-PH/ORP

CTRL4/CTRL7/CTRL20

Main Features:

1. 16-word dual-line LCD screen, full working status
2. Display automatic recording and storage
3. 2 options: a) Built-in pH/ORP monitor or b) Dosing only
4. Pump flow control is automatically determined according to monitor pH / ORP value
5. PH, ORP, flow and other automatic/manual calibration
6. Level gauge input interface, low level alarm
7. Flow meter input telematic control
8. Password protection

WT500 Series

Dual Parameter Water Quality Monitor

WT500 series water quality monitor can simultaneously measure pH & ORP value by a built-in dual parameter. It automatically controls the chemical dosage when partnered with the CTRL4/CTRL7/CTRL20 dosing pump.

Model:	WT500PR
Code:	9318661
Measuring Range:	pH 0-14.0 & ORP 0-1500mV
Applicable pool area:	Standard Pool
Diaplay:	Double line LCD
Input Voltage/Frequency:	220-240Vac 50/60Hz
Size:	234X162X108mm
Meterial:	PP
Waterproof Standard:	Ip65
Installation:	Wall mounted
Standard Accessories:	pH probe/ORP probe/Calibration solution/Probe mounting connector

Highlight Features:

1. Simple and convenient parameter setting
2. Timed proportional dosing(PWM function)
3. Remote alarm relay
4. LCD diaplay
5. 4-20mA current output (isolated)

Working Features

The dosing pump is activated by a PTFE membrane mounted on a piston and electromagnet. When the piston is attracted by the electromagnet, pressure is produced in the pump body and the liquid is expelled from the discharge valve. Once the electric impulse is finished a spring brings the piston back to the initial position, with a recall of liquid through the suction valve.

LED indicators on the control panel monitor the dosing pump by electronic micro-control technology. Easy operation without lubrication, makes it almost maintenance free.

Note: The CTRL series of dosing pumps is based on an electronic micro-controller, strong and reliable components manage the pH or ORP parameters.

Probe and Accessories Specifications

Chemical Feeder

For residential and commercial pools

MAINTAINS CHLORINE LEVEL AUTOMATICALLY

Emaux high capacity feeders offer a user-friendly solution for sanitizing large residential and commercial swimming pools using either chlorine or bromine tablets. They are heavy duty and able to provide automatic sanitization for pools up to 608,000 liters. Both in-line and off-line plumbing installations are available in 2 sizes.

Installation

1. Model: CL-01/CL-02/CLL-50/CLL-75 (In-line)

2. Model: CL-01A/CL-02A (Off-line)

Treats pool / spa size (Unit: Litre, in a period of 24 hours)

This feeder can ONLY be used with slow-dissolving Tri-Chlor.
Do NOT mix with other type of chlorine or chemical, otherwise, it may cause an explosion or fire.

UNDERWATER LIGHTING

E-Lumen X Series Underwater Light

Synchronize color settings of 2 zones by ColorTouch Control System

TRUE COLOR RGB WITH WARM WHITE AND COOL WHITE LED

1. The light incorporates five basic colors of LED chips: cool white, warm white, red-green-blue (RGB), with high power and constant color rendering over time and temperature
2. Equipped with state-of-the-art LED technology, E-Lumen X ensures increased energy and luminous efficacy achieving 80 lumens per watt
3. LED life exceeds 40,000 hours
4. The innovative design of the diffusion lens and bulb matrix provides exceptional reflection, brightness, throw, and angle of illumination
5. The perforations on the face ring contribute to the light intensity and angle of illumination by allowing a light penetration throughout
6. Self determined operation mode with or without ColorTouch controller
7. Automatic color synchronization among lights and zone

Cool White

Advantages:

Innovative convection design

Eagle eye allocates the innovative technologies of convection design. The faster the heat transfer, the longer it will last.

The flexibility of smaller size

Eagle eye is only 190mm (7½") in length, which can fit into the narrowest pool walls, providing flexibility for every masterpiece design.

Long operational lifespan

LED life exceeds 9,000 hours.

Ultimate glowing

The diffuser lens offers a wide angle and distance of illumination.

Multi-installation mechanisms

Designed for installation with PVC pipes, suction fittings, and wall conduits and adaptable for different pool types.

Wireless color change

Compatible with Emaux Colortouch remote control system for direct change: color, lighting effect and brightness level.

Friendly accessories

A protective cover plus two lens covers are included. Lens covers are specifically designed for the Eagle eye to eliminate reflective shadows and halos on the pool floor, which helps to keep bright lights out of swimmers' eyes in shallow areas.

DOWNLOAD THE APP

SMART
LIFE

IoT Connection: An IoT version can be controlled and monitored over an internet connection, enabling users to manage lighting remotely. This connectivity allows for real-time color and brightness adjustments, and automated scheduling in home lighting.

Wi-Fi connectivity:

1. IEEE802.11, 2.4GHz, b/g/n
2. Internal antenna, open area 50m

Code	Model	Description
9110901	ColorTouch	ColorTouch Control Box 220V with Touch Remote
9110910	ColorTouch IoT	ColorTouch Control Box 110-220V with Touch Remote & Internet (IoT) connection

#Please contact our sales representative to verify whether the Wi-Fi channel code is compatible with the ColorTouch device you intend to purchase.

Synchronize color settings of 2 zones by ColorTouch Control System

1. ColorTouch control system can control different modes of lighting in two separate zones at the same time.
2. Each zone can support pool light fixture upto 300VA.
3. Simple one-touch button can instantly synchronize both zones.

Features:

1. ColorTouch control box not only supports all E-Lumen X series lamp with direct color change and brightness adjustment, but also supports E-lumen ON/OFF switch type for changing lamp color.
2. Provides direct light color change and two zones synchronized color control.
3. By using the existing two-core wires and 12Vac power system. ColorTouch becomes an ideal choice for most pool retrofit and refurbishment projects.
4. Waterproof Standard IP44.
5. The hand-held remote-controller which is compact, user-friendly and water resist. It operates up to 50m in open area.
6. One-touch light effect selection feature though remote-controller: 7 different colors, auto-color changing, and 3 brightness level selection.
7. IoT Connection edition provides all control features as a remote controller over a smartphone through the Apps.
8. The Smart Life - Smart Living app can show current color controlling on your smartphone.
9. The Time Schedule function can enable you to define time-based rules by the Smart Life App and trigger your ColorTouch for certain actions automatically.

E-Lumen Series Underwater Light

Incorporating E-Lumen Ultra-Thin LED Panels

A PROMISING CHOICE OF PROFESSIONAL UNDERWATER LIGHT

E-lumen Lights offer 100% resin-filled waterproof and extra-long lifetime - 25,000 hours (10 times longer than traditional halogen bulbs). Unlike other LED lights, the Ultra-Thin LED panel keeps working even if a single LED bulb goes out.

The cool-operating feature provides more brightness for fewer watts, compared to other lights in which 90% of the energy is wasted on the heat they generate.

Simple bolt fixing fittings are provided to replace the PAR56 type of pool and spa underwater lights. The LED Panel is compatible with most of the European & American niches. An optional remote control box is available.

E-Lumen Series Underwater Lighting Effects

1. E-Lumen Ultra-Thin LED panels are available in RGB (red-green-blue), warm white, cool white, and single blue.
2. RGB models feature six brilliant rich colors to customise the mood of the pool with owner preferences, and eight pre-programmed color light shows delivering dazzling rainbow and smooth fading effects.

E-LUMEN ULTRA-THIN LED PANEL

For E-Lumen, EL-S100, EL-S300, EL-H200, EL-NP300

MOST ENERGY AND LUMINOUS EFFICIENCY

The Ultra-Thin LED panel is based on the most recent LED development on the market, and uses the most efficient energy and illumination technology. The convenient plug-n-play panel kit replaces most of the underwater lights on the market. By only unscrewing few bolts of your old and energy costly light bulb and swapping it for the Ultra-Thin LED Panel.

E-LUMEN SERIES

PROFESSIONAL UNDERWATER LIGHT

Emaux's E-Lumen Underwater Light is the industrial leading Nicheless LED pool and spa light, designed to delivery brilliant and vibrant colors by a single light. The single color options maximize the brightness of your pool. The party themes run through your pool and spa by E-Lumen 6 brilliant rich colors and 8 colors pre-programmed light show. With the best LED technology, Nicheless E-Lumen mounts directly on the wall for simple installation. Only required few bolts, this is the most convenient choice for professional underwater light.

E-LUMEN - EL-H200 SERIES

THE SLIM NICHE FITS ANY POOL STRUCTURES

1. The E-Lumen Ultra Thin LED panel (Resin-filled) offers a smooth front but superior lighting effect.
2. The combination of the stainless steel face ring and the slim plastic niche achieves the simplicity yet elegance.
3. Slim niche fits any pool structure including thin concrete walls.

Aurora Light

For concrete, tiled, vinyl liner, and fiberglass pools

INNOVATIVE DESIGN AND ADVANCED LIGHT ENGINEERING

1. **100% WATER PROOFING** With our latest resin filled LED panel technology, the unit is totally waterproof.
2. **HIGH COMPATIBILITY** Aurora is designed for all concrete, tiled, vinyl liner, and fiberglass pools.
3. **GREAT DURABILITY** Made of durable ABS with high quality polycarbonate transparent lens. A special heat sink design ensures long LED life.
4. **CONVENIENCE** Easy installation and maintenance. Latest wiring method allows convenient, reliable wiring for replacement.
5. **THE WIDEST ANGLE OF ILLUMINATION** The combination of high power LED bulbs and unique 360 degree LED ring achieves the widest angle of illumination on the market.

E-Lumen Compact Light

For concrete, vinyl liner, and fiberglass pools

100% WATERPROOFED RESIN-FILLED LIGHT

E-Lumen Compact Light comes with the resin-filled LED panel. Its efficient use of energy offers great illumination at a low power consumption. The E-Lumen Compact is available in two models: the nicheless version is designed for fiberglass or steel panel pools, while the niche version is suitable for concrete pool installation.

Ultra Slim LED Light

INNOVATIVE ULTRA SLIM STYLE AND CUTTING-EDGE ILLUMINATION

Elevate your swimming experience with our cutting-edge ultra-thin pool lights! The Ultra Slim LED Light offers a sleek and elegant lighting solution that seamlessly integrates into your pool environment. Crafted from high-quality AISI-316 stainless steel, these lights are not only stylish but also easy to install and maintain.

With an impressive thickness of just 8 mm, our Ultra Slim LED lights blend effortlessly into your pool walls. Made from durable PC plastic, these lights are resistant to water and chemicals, ensuring longevity and exceptional value.

2. The **AISI-316 stainless steel** body ensures optimum corrosion resistance.
3. **100% Water Proofing** with our latest resin filled LED panel technology, the unit is totally waterproof.
4. **Convenience** easy installation and maintenance.
5. **Extremely energy-saving** and **Environmentally Friendly**.
6. **LED life** exceeds 40,000 hours.

Terra-Lux Light

For both installation in underwater or ground surface

ENERGY SAVING, AND A WIDE RANGE OF APPLICATIONS

This small but powerful light is an ideal solution for saving energy while at the same time generates high level illumination from its 3W LED light source. The AISI-316 stainless steel body assures optimum corrosion resistance. The polished stainless steel surface is simply classic and elegant. The high grade ABS plastic niche is also durable and applicable for installations such as in-ground, pool wall, deck surface, and steps.

Glow+ LED Strip

Flexible IP68 Linear Lighting for pools and water features

AESTHETIC UNDERWATER LIGHTING EFFECT

Glow+ is an extendable and top view flexible LED strip for creating underwater profile lighting. The flexible linear design fits to any shapes or sizes of pools that have straight or curved profiles. Its completely waterproof feature enables it to be widely used in swimming pool, spa, and water features.

Material
Modified PVC

Working Voltage
24VDC

Rated Power/M
10W per meter

Color intensity option
6500K/5700K/5000K/
4500K/4000K/3500K/
3000K/2700K

Light strip bending radius
12cm

IP Rating
IP68

Main Features:

- Lengths of up to 20m minimize the number of required connections.
- Its waterproof, UV, saltwater, flame, solvents and dirt resistant characteristics provide a long, maintenance-free life.
- Waterproof accessories allow safe and easy installation and connection.
- Certificated LM-80 and ANSI C78.377 LED lighting standards and IK08 for external impact resistance.
- Available in range of white CCT intensity from 2700K-6500K for ambient matching.
- 120-degree beam angle. Flat rectangular diffuser surface provides a smooth profile.
- Manual or Wireless remote dimmer is available for adjusting lighting effects.

RoHS

Code	Model	Description
9042915	GL10	White LED Strip 0.5m - max. 20m length, Color intensity 2700 - 6500K

LED STRIP (10M LENGTH) ORDER CONFIGURATION

Code	Model	Description
9042901	GL10SR	Power connector side right (For 0.5-10m LED Strip)
9042903	GL10SL	Power connector side left (For 0.5-10m LED Strip)
9042905	GL10LR	Power connector side both (For 10.5-20m LED Strip)
9042907	GL10SD	Power connector side direct (For 0.5-10m LED Strip)
9042909	GL10BD	Power connector side both direct (For 10.5-20m LED Strip)
9042911	GL10SB	Power connector side bottom (For 0.5-10m LED Strip)
9042913	GL10BB	Power connector side both bottom (For 10.5-20m LED Strip)

Code example: 9042915 (5m length, 3000K) + 9042901 = 5m LED strip 3000K with power connector side right.

Recommended Dimmer And Power Supply

24V DC power supply provides LED strip power source and dimmer with remote control to adjust the brightness of the strip.

Code	Model	Description
40501088	Dimmer Controller	LED Dimmer with remote
50903018	Power Supply HLG 240H 24	24V, 240W, 100-240V AC 50/60Hz input voltage, IP67 (For 0.5-20m LED Strip)
50903019	Power Supply HLG 120H 24	24V, 120W, 100-240V AC 50/60Hz input voltage, IP67 (For 0.5-10m LED Strip)

Mounting Accessories

2 available lengths of plastic mounting clips for light strip installation and one stainless steel clip for corner reinforcement.

Code	Model	Description	Photo
51110006	GLPMC	Plastic Mounting Clips Transparent 35mm	
51110007	GLPMC1M	Plastic Mounting Channel Transparent 1m	
51110008	GLSMC	Stainless steel Mounting Clip 5cm	
10519001	GLDIYSC	DIY End Connector Kit	

Light Control Box

Remote control for RGB lights. Electrical overload and leakage protection

WEATHERPROOF FOR OUTDOOR INSTALLATION

The AC power of 600W at maximum feed into the control box is divided into 2 circuits which can each support a load up to 300W. The control for lights on the same line is by nature synchronized and synchronization of control over both lines (all lights) is also possible.

IP44 CE RoHS COMPLIANT SAA

Product Features:

1. IP44 rating, suitable for outdoor use
2. Maximum load of 600W with power indicator
3. Made from fire-proof PC material
4. Panel control mode and remote control mode
5. The hand-held remote control interacts with the control box from a distance
6. Simple and easy operation with 4 keys
7. 10 effects are all sequentially numbered. The "RESET" key set all lights to the first effect
8. "POOL" and "SPA" keys are used to change the lighting effects connected to the pool circuit and the spa circuit respectively

Product Information

With Remote Controller

ENSURE VERSATILITY AND SAFETY

1. Low voltage for new construction or replacement lighting system application
2. Fully enclosed waterproof outdoor design
3. Flexible cable wiring and connection
4. Compact size for any placement
5. Models at different power ratings to suit the entire range of Emaux lighting

WATERPROOF JUNCTION BOX

For flush installation in pool deck

Corrosion-Proof Unibody Construction

The heavy-duty skimmer can be used for residential and commercial swimming pools suitable for concrete, fiberglass, and vinyl surfaces. The 3 models are injection molded and made with UV resistant ABS material; the reinforced material provides the maximum strength and durability for all weather conditions. The design allows 1.5" or 2" suction connections to the piping.

Exploded diagram

Product Features:

1. Suitable for 1.5" and 2" piping
2. Knockout overflow / fill port
3. A large debris collection basket
4. Snap-in and removable weir
5. Optional accessories:
 - a. Stackable extension collar allows infinite vertical height
 - b. Stackable extension throat allows variable horizontal length

SURFACE SKIMMER

Elegant & Functional

This 600mm wide surface skimmer enables the water line to be close to the pool deck level and creates an elegant finish similar to an overflow pool. A wide skimmer mouth and a large basket maximize water circulation and skimming efficiency.

Grating System

TPV ANTISKID GRATING (DE27 Series)

Anti-slip, safe, durable and universal

This antiskid grating is designed for professional applications. The single spine grating is suitable for straight and curve overflow pools. The anti-slip coloured top offer extra comfort and maximize safety for the swimmers.

Product Features:

1. Materials : Polypropylene (PP) + Glass Filled
2. Anti-slip materials: Thermoplastic Vulcanizate (TPV)
3. Durable, UV resistant
4. Standard color : White / Blue
5. MOQ required for other colors

Grating Support Profile Anti Slip Grating

Code	Model	Colour	Size
91600710	DE2720W	White	200 x 26.5 mm (1m)
91600719	DE2720B	Blue	200 x 26.5 mm (1m)
91600711	DE2725W	White	250 x 26.5 mm (1m)
91600725	DE2725B	Blue	250 x 26.5 mm (1m)
91600712	DE2730W	White	300 x 26.5 mm (1m)
91600731	DE2730B	Blue	300 x 26.5 mm (1m)

FLOOR PAD (DE30 Series)

The floor pad is made of high-strength corrosion proof PVC that resists chipping and cracking. It is portable and can be easily installed on a pool deck or changing room floor. The colourful floor pads create a soft and nonslip surface to ensure the safety of your facility.

Code	Model	Color	Size
91600601	DE3030	White	300 x 300 mm
91600602	DE3030	Red	300 x 300 mm
91600603	DE3030	Blue	300 x 300 mm
91600604	DE3030	Yellow	300 x 300 mm
91600605	DE3030	Green	300 x 300 mm

Product Features:

1. Materials : PVC
2. Standard color : White / Blue
3. Other colours available for order up to 500 metres

TRANSVERSAL PP GRATING (DE28 Series)

This transversal grating offer safety grip and minimize the gap to prevent injury. It can be used in commercial and residential pools. This sturdy and cost-effective gratings have been used in many overflow systems.

Code	Model	Size
91600713	DE2819	195 x 22 mm (1m)
91600714	DE2824	244 x 22 mm (1m)
91600715	DE2833	334 x 22 mm (1m)

Product Features:

1. Materials : Glass filled PP
2. Standard color : White
3. Other colours available for order up to 500 metres

ZIGZAG TYPE GRATING (DE26 Series)

This Zigzag type grating has a heavy-duty construction that offers a long product life. The zigzag shape provides a smooth surface and solid support in both straight and curved installation.

Code	Model	Size
91600706	DE2618	180 x 30 mm (1m)
91600707	DE2620	200 x 30 mm (1m)
91600708	DE2625	250 x 30 mm (1m)
91600709	DE2630	300 x 30 mm (1m)

Product Features:

1. Materials : ABS
2. Standard color : White
3. Other colours available for order up to 500 metres

CURVABLE PP GRATING (DE29 Series)

This modern design curvable grating is made of PP material to achieve both sturdy and cost-effective. It has the most popular dimensions and functions to fit in your designs of different pool shapes.

Code	Model	Size
91600716	DE2919	195 x 22 mm (1m)
91600717	DE2924	244 x 22 mm (1m)
91600718	DE2929	297 x 22 mm (1m)

Product Features:

1. Materials : Glass filled PP
2. Standard color : White
3. Other colours available for order up to 500 metres

CURVABLE GRATING (DE25 Series)

This curvable grating snaps together by a single spine permitting maximum flexibility. It can be easily adapted to most free-form pool shapes. The nonslip surface and solid support increase the grating's safety and durability.

Product Features:

1. Materials : ABS
2. Standard color : White
3. Other colours available for order up to 500 metres

WATER FEATURES

Water Descent

Five models for different water effects

MAKE YOUR POOL ALIVE!

Water Descent is one of the most beautiful ornamental features for your pool or spa. Creating a water movement in your pool, it may be adjusted from a peaceful sheet of water falling into the pool, to a relaxing water massage for your back, adding elegance and style to your pool. Available in five different models, you can enjoy different water effects and trajectories, from our standard waterfall, to rain sheer or arc trajectory.

With the optional RGB LED strip, the unit provides you vibrant colorful waterfall which adds visual interest and soothing sound of flowing water to your landscape.

LED Strip Power

12V DC

Remote Control

10 Lighting Patterns

Widths

25/150 mm

Lengths

300/600/900/1200mm

Features:

1. Available in two different widths: 25 mm and 150 mm, they are suitable for different wall sizes.
2. Four different lengths: 300 mm, 600 mm, 900 mm, and 1200mm.
3. LED strip is powered by external 12V DC, which is safe and reliable.
4. The LEDs can be operated through panel or remote control and 10 lighting patterns are available.
5. Multiple water descents can share the same controller for synchronized color effects.

LED Water Descent Control Box

Instead of using fiber optics, the LED strip is built into the unit placing the light source as close as possible to the waterfall. This design creates a wonderful illumination to the water falling into the pool.

10 pre-programmed LED lighting effects allow you to create the best luminous water features in your hands.

5 different models available for different water effects:

- 1. PB Series: Sheet of water with standard trajectory.
- 2. PBA Series: Sheet of water with arc trajectory.
- 3. PBS Series: Sheet of water with sheer trajectory.
- 4. RA Series: Rain fall effect with arc trajectory.
- 5. RS Series: Rain fall effect with sheer trajectory.

NOTE 2 : Water descent(s) only to be used filtrated water. Water flow rate or water pressure is higher, it has to be diverted to the pool. Check the charts or each water descent which relate flow rate, trajectory and height of water descent.

RA & RS Series

RA Series

Water Descent Rainfall Arc adds character and style to your pool. The water rain falls up from the unit at an angle 45° and then naturally arcs and fall to the water surface.

Countercurrent Jet

For small size training pools

ENDLESS NO-LAP SWIMMING TRAINING

Perfect for small pools where space is limited. Excellent for fitness training, underwater massage, endless no-lap swimming and unnecessary tumble turns.

1. Countercurrent Jet Face Plate

EM0055

Underwater on/off Switch

Adjustable Nozzle and LED Light

RGB Color Water Light

LED White Water Light

Product Dimensions

Code	Model	Description
91602102	EM0055	Countercurrent Jet with LED Light RGB
91602101	EM0055	Countercurrent Jet with LED Light white

Product Features:

1. Powerful counter current.
2. Product can be used as a single or double jet system with one or two pumps.
3. Counter current face plate with LED Light.
4. All controls are on the face plate and can be operated in perfect safety while you are in the water.
5. Adjust the valve to control the bubble effect.
6. Water flow direction can be changed through the adjustable nozzle.

Accessories For Emaux Countercurrent Jet

2. Pumps

SR Series Pump

1. Class insulation: 130(B)
2. IPX5 Waterproof standard
3. Built-in thermal protection
4. Overload protection

UPH Series Pump

1. Waterproof: IPX5
2. Self Priming: 3 m
3. Flow rate: Up to 110 m³/h
4. Working Voltage: 380-400Vac
5. Premium Efficiency IE3 Class Motor
6. Bearing: High temperature resistant up to 160 °C

SURROUNDING EQUIPMENT

LADDER

Quality ladders provide safety and ease for your pool

ROBUST STEEL ARMS OF POOLS

Ladder handrails are made of $\varnothing 42\text{mm}$ tubes in polished stainless steel 304 (or 316 for saltwater pools). Correct selection and proper placement of handrails and ladders add a significant measure of safety to every pool area. Three kinds of step are available: Plastic, stainless steel, and stainless steel with anti-slip pads. All ladders are available with anchor or flange type fixtures for easy installation.

Step Options:

1. Stainless Steel

2. Stainless Steel (with anti-slip pad)

3. Plastics

Installation Options:

1. Anchor Type

2. Flange Type

Ancillary Shoring

- is provided with a supporting construction on the wall.

Pool ladders can be easily installed either with anchors embedded in the concrete deck or bolted flanges. The fixtures are concealed by stainless steel escutcheons.

Automatic Pool Cleaner

Never been so easy

NO ELECTRICITY NEEDED!

The unique design of Emaux Automatic Pool Cleaner is our outstanding cleaning device with a suction function which ensures trouble-free operation. The power suction helps in the scrubbing of the wall and floor without any supervision.

Integrated Design

Emaux Automatic Pool Cleaner is designed to a high standard with quality material that enhances the durability. The special pleated seal maximizes the cleaning performance and excellent adhesion enables the scrubbing of the entire surface of the pool.

Product Features:

1. User-friendly and easy installation in a minute
2. Suitable for domestic in-ground pool and above ground pool
3. Quiet and fast cleaning
4. No electrical connection needed - this cleaner draws its power from the suction of the pool pump and cleans the pool while the filtration system is running

Package Includes:

1. Nut for Hose
2. Hose weight
3. Automatic Regulator Valve
4. Hose cone
5. Roller bumper strap
6. Pleated seal
7. 0.8m hose x 13

Chemical Dispenser

Chemical Dispensers are made of high-grade ABS plastic. Designed to accommodate standard chlorine tablets for pools. Adjustable flow rate regulates the dissolving time of the tablets to maintain the correct level of chlorine in the water.

Code	Model
9100801	CE501

Salinity Meter

Assess the concentration of salt

QUICK RESPONSE AND EASY TO CALIBRATE

This pocket digital Salinity Meter is designed for the pool professional for testing the salt level in pools using salt chlorinators. The meter is dipped into pool water to get instant measurements from a range of 0 to 70 ppt (0 - 70,000ppm) at temperatures from 0 - 50°C.

Product Information

Code	Model	Salinity Range	Accuracy	Salinity Resolution	Temperature Range	Operating RH%
9316635	8371	0-10.00ppt(NaCl) 10.1-70.0ppt(NaCl)	+/-1%F.S +/- 1 digit 1ppm or 0.01ppt +/-2%F.S +/- 1 digit (10.1~70.0 ppt)	0.01 0.1(10.1~70.0ppt)	0~50.0°C	Humidity < 80%

Product Features:

1. Dual display Temp. & Salinity with ATC
2. Waterproof membrane keypad
3. Low cost and high accuracy
4. Built-in NaCL Temp. coefficient
5. Built-in NaCL Cond. to TDS conversion factor
6. Auto power off / Non-Sleep mode disable
7. Big LCD dual display
8. Auto temperature compensation
9. One-touch auto-calibration
10. Data hold function
11. Calibration information review
12. Low battery indicator

Package Contains:

1. The meter x 1
2. LR44 button battery x 4
3. Operation manual
4. Color box or plain box

ORP Meter & PH Meter

ORP Meter

ASSESS THE ORP (OXIDATION-REDUCTION POTENTIAL)

EASY TO USE AND FACTORY CALIBRATED

ORP Meter ideal for use in swimming pools and spas, as it can provide a valuable indication of water quality. The size is small and easy to carry with. Simple to use and provides instant display of results.

Product Features:

1. Big LCD with real time ORP display in mV
 2. Storage solution bottle to keep sensor wet & last life time
- Application: - excellent to use in the water disinfection process
- excellent to use in the aquaculture

Package Contains:

1. The meter x 1
2. LR44 button battery x 4
3. Operation manual

Product Information

Code	Model	mV Range	mV Accuracy	mV Resolution	Operating Temp.	Operating RH%	Storage Temp.	Storage RH%

pH/Temperature Meter

ASSESS THE PH AND THE TEMPERATURE

USER FRIENDLY AND EASY TO CALIBRATE

This pocket digital pH/Temp Meter is designed for on-the-go measurements of pH and temperature. The high accuracy pen type pH/Temp meter uses combined pH electrode of high sensitivity, fast response, and good repetition as probe. It has a pH range from 0 to 14 with an accuracy of ± 0.05 pH.

Product Features:

1. Big LCD with dual display
2. pH/Temperature dual display
3. Measuring stability indicator
4. One touch auto-calibration up to 3 points
5. Calibration values are adjustable
6. Can keep sensor wet & last life time

Package Contains:

1. The meter x 1
2. LR44 button battery x 4
3. Operation manual

Product Information

Code	Model	pH Range	pH Accuracy	pH Resolution	Temp. Range	Temp. Accuracy	Operating Temp.	Operating RH%

HEATING EQUIPMENT

HET Series Heat Exchanger

Connects to different kinds of boilers, heat pumps and solar panel systems

PREMIUM THERMAL CONDUCTIVITY

The Emaux HET series heat exchanger is constructed from titanium, making it ideal for demanding installations with a high risk of corrosion, particularly in saltwater pools or when using a salt chlorinator. Renowned for its impressive output and exceptional heat transfer capabilities, this series is suitable for a variety of applications. Each model is designed for easy installation and compatibility with various systems, including boilers, heat pumps, and solar panel setups. The Emaux HET series is distinguished by its reliability and performance, ensuring effective thermal management in diverse environments.

Product Features:

1. Titanium casing: HET75 (Ø133 x1.5mm)
HET200 (Ø196 x1.5mm)

2. Titanium twisted tubes for heat transfer

3. SS AISI-316 stainless steel base
4. Suitable for pools up to 300m³

5. 75kW or 200kW availability

6. Vertical installation

Installation

HST Series Heat Exchanger

Connects to different kinds of boilers, heat pumps and solar panel systems

ENGINEERED FOR EXCELLENCE IN HEAT TRANSFER!

The Emaux HST series heat exchanger is made from titanium, making it perfect for challenging environments prone to corrosion, especially in saltwater pools or with salt chlorinators. Its innovative spiral heat tubes design enhances heat distribution, ensuring the system is both efficient and energy-saving. Known for its impressive output and superior heat transfer capabilities, this series is versatile for multiple applications. Each model is designed for straightforward installation and compatibility with various systems, including boilers, heat pumps, and solar panel setups. The Emaux HST series stands out for its reliability and performance, providing effective thermal management across diverse environments.

Product Features:

- 1. Titanium casing (Ø133x1.5mm)
- 2. Titanium spiral tubes for heat transfer
- 3. SS AISI-316 stainless steel base
- 4. Suitable for pools up to 300m³
- 5. 28kW to 75kW availability
- 6. Horizontal installation

Installation

HE Series Heat Exchanger

Connects to different kinds of boilers, heat pumps and solar panel systems

EXCELLENT HEAT TRANSFER CAPABILITY

A heat exchanger is used to continually transfer heat/cold from one media to another in order to carry process energy.

Emaux HE series Heat exchanger produces high output and has excellent heat transfer capability. All models can be installed and connected to different kinds of boilers, heat pumps and solar panel systems.

Product Features:

1. High quality acid-resistant AISI-316 stainless steel
2. Precision-welded outer jacket
3. Seamless pipes equipped with flow restrictors for high heat exchange capacity
4. Four size: 40, 60, 75, 120 kW, suitable for swimming pools of up to 450m³

- ① PP Baffle Stick
- ② SS AISI-316 stainless steel casing (Ø133x1.5mm)
- ③ SS AISI-316 stainless steel heat transfer tubes(Ø10x0.6mm)
- ④ SS AISI-316 stainless steel base

Testing Pressure:

1. Pool Water Circuit: 5 Bar
2. Hot Water Circuit: 10 Bar

EcoHeat Inverter Gold Heat Pump

Full DC inverter pool heat pump

HIGH PERFORMANCE & SAVE COST

The EcoHeat Inverter Gold Heat Pump features a durable ABS body designed to withstand year-round weather conditions. It utilizes advanced inverter technology, distinguished from traditional heat pumps, to save more energy and reduce carbon dioxide emissions. The unit comes with R32 refrigerant and achieves a high Coefficient of Performance (COP) of up to 17, ensuring exceptional energy efficiency. Equipped with an intelligent LED touch display for easy control, it operates effectively within an air temperature range of $-7\sim 43^{\circ}\text{C}$. A key benefit is its smart defrosting system, which automatically initiates defrosting when needed, optimizing performance and reliability.

EcoHeat
INVERTER **GOLD** HEAT PUMP

Intelligent LED Touch Display

INTELLIGENTLY SMART FUNCTION

The smart AUTO modes dynamically adjust to temperature changes, saving energy and maintaining pool heat.

CE CB IPX4

Product feature:

- Operation air temperature (-7~43°C)
- Heating up to 40°C; Cooling up to 8°C
- ABS Front panel, Metal back panel
- Connection: 1.5"/ 50mm
- IPX4 Waterproof Standard
- Intelligent LED Touch Display
- Automatic defrosting with smart control

Graph of variable working condition for COP

The maximum COP can reach 17

Inverter Heat Pump

Connects to different kinds of boilers, heat pumps and solar panel systems

HIGH COP TO SAVE ENERGY COST

Industry leading efficient stepless DC inverter control system. With smart conversion of compressor, fan motor and pressure system, it provides amazing energy saving performance with max COP of 16.1.

25% gas
quota of R410a

Quiet as a fridge

Average COP 10.7
93% free energy

INVERPAD TECHNOLOGY

Thanks to the InverPad technology, the inverter provides an average of 93% free energy from ambient air.

SILENCE TO RELAX YOUR MIND

A fully enclosed cabinet is specially designed for the compressor so that the running noise can be kept inside and the noise of the whole unit can maintain very low.

Double-side Airflow Outlet

The unit uses double-side airflow cabinet which through years of application in the market is proven to be highly efficient in heat exchange and outstandingly silent during operation.

Optional Noise Absorbing Cover

On the cabinet, the lively interplay of sheet metal surfaces combined with irregular shaped pattern is reminiscent of a high-performance swimming pool heat pump products. More importantly, noise absorption cover effectively reduces 8dB(A).

Eco-friendly R32

32% GWP, 25% CO2 carbon consumption & 25% quota cost comparing to R410A.

Full Protection on Electrical system

With a DC inverter compressor, inverter will start from 0 amps and increase steadily. There is no rush to the house electricity system.

Wide Voltage Application

Self-adjustment to fit in unstable power supply, therefore voltage range can be 180V ~260V.

Heat Pumps

Durable, low cost, easy and quiet operation

B2 SERIES HEAT PUMP

Product Features:

- 1. Durable** The long-life heat exchanger is made by PVC & titanium tube, which can withstand prolonged exposure to pool water.
- 2. Easy Operation** The unit is very easy to operate: switch it on and set the desired pool water temperature. Operates in a normal ambient temperature of 12-35°C.
- 3. Quiet Operation** The unit comprises an efficient rotary compressor and a low-noise fan motor, which guarantee its quiet operation.
- 4. Low Cost** The running costs are very low due to its high performance.

B SERIES HEAT PUMP

Product Features:

- 1. High Efficiency** With a COP value up to 5.0, our heat pumps are very efficient when transferring heat from the air to the swimming pool water. Savings as much as 80 % of running costs are possible compared to an electrical heater.
- 2. Long life-span** The heat exchanger is made by PVC & Titanium tube, which can withstand and prolong exposure to pool water.
- 3. Easy Control and Operation** Easy control and operation by simply switching on and setting the desired water temperature. The built-in computerised controller permits the setting of the operational. The status can be displayed in the LCD Display

COMPETITION POOL

Starting Platform Super Racer 800

This is a premium starting platform suitable for top performance training and competition venues.

The platform includes the FINA Approved Moveable Track Start and Safe Start Handles.

- 1. Glass-Reinforced plastic (GRP) construction with SS316 fittings.
- 2. Movable Track Start (MTS) adjustable to 5 positions.
 - Durable, non-slip Aquadeck® tread.
 - Safe Start handles for fast starts and safety.
 - Backstart handles reinforced with SS316 for safety and durability.
 - Compatible with major electronic timing systems (including Omega RBD).
 - 'No Dive' Covers available.

Product Order Code

931166132	EOP017	SUPER RACER 800	GRP, 800mm Top	43kg	0.42m ³
931166133	EOP018	PLATFORM COVER	NO DIVING	2kg	0.05m ³

Starting Platform Racer 600, Overflow Block Stand & Turn Board

STARTING PLATFORM RACER 600

It is designed for the requirements of competition and training pools.

side view

vertical view

1. Glass-Reinforced plastic (GRP) construction with 316 SS fittings.
2. Compliant with FINA starting platform guide lines FR2.7.
3. Fixed Track Start and Safe Start handles for fast start times and safety.
4. Back start handle is reinforced with SS316.
5. Top features non-slip finish.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166135	EOP115	RACER 600	STARTING PLATFORM GRP, WHITE COLOR	19.5kg	0.27m ³

OVERFLOW BLOCK STAND

The Overflow BlockStand provides a stable and durable platform for the installation of blocks in an overflow pool environment.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166136	EOP020	OVERFLOW BLOCK STAND	GRP BLOCKSTAND	31kg	0.45m ³
931166137	EOP021	TURN BOARD GRP	GRP 1.2m x 0.3m	10kg	0.10m ³
931166138	EOP429	TURN BOARD GRP	GRP 2.0m x 0.3m	13kg	0.15m ³

TURN BOARD

Produced from FRP with SS316 fittings, the turn board provides positive confirmation of the pool end for the swimmer and attaches to the Overflow BlockStand with 4 x SS M4 Bolts.

Racing Lane

Super Tensioner Design:

- 1. Meet FINA (2013–2017) requirements
- 2. Threaded rod allows safe and simple lengthening or shortening of lane ropes.
- 3. Stainless Steel rod with brass ferrule and glass filled polycarbonate body construction.
- 4. Cable is SS316 with diameter of 3.1mm and max force of 5KN.
- 5. Super tensioner body length including lock nut is 230mm.
- 6. All fittings are marine grade SS316.
- 7. Super Tensioner is tested up to 4kN line pressure, allowing high performance wave dissipation.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166122	EOP001	25m Small	Racing Lane 110mm diameter	29kg	0.34m ³
931166123	EOP002	25m Large	Racing Lane 150mm diameter	34kg	0.62m ³
931166124	EOP003	50m Small	Racing Lane 110mm diameter	57kg	0.68m ³

931166127	EOP009	LONG Clamp	Supplied with SS Hook	0.1kg	0.001m ³

Small LANE

Large LANE

EOP009

- 1. The small LANE 110mm is suitable for competition, water polo and general pool division.
- 2. The large LANE 150mm is designed for optimal water dissipation and wave control in high turbidity competitive environments (shown above), such as top National and International competition venues.

EOP005

Lane Anchors, Deck Hole Anchors & Overflow Lane Anchors

LANE ANCHORS

Lane Anchor S316

Unit in mm

Racing Lane Anchors provide secure flush anchoring to the pool for lane ropes and goal lines

1. SS316 Lane Anchor with 38.1mm or 48.3mm diameter x 72.2mm length.
2. Optional Booker Rod may be used if required.
3. Feature flush fitting end cap

DECK HOLE ANCHORS

1. Provides a flush and secure anchor for equipment.
2. Fabricated from either marine grade SS316 or Nylon.
3. SS316 Deck Hole available in 38.1mm x 100mm.
4. Marine Nylon Deck Anchor (not pictured) available in 48.3mm x 125mm only.

Deck Hole Anchor S316

Unit in mm

OVERFLOW LANE ANCHORS

Overflow Lane Anchors provide secure anchoring of Lanes to the pool in overflow pools.

Unit in mm

Product Order Code

Code	Model	Product	Description	Weight	Volume

Lane Roller & Lane Saver

LANE ROLLER

1. High capacity, unbeatable quality.
2. Powder Coated Aluminum construction.
3. Exceptional Capacity - holds up to 6 x 25m Small 110mm lanes or 4 x 25m Large 150mm.
4. Strong SS316 Castor Wheels with brake.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166142	EOP010	STOREEL	ALU Lane Storage Reel	48kg	0.47m ³

LANE SAVER

Lane Saver provides a safe and quick removal and installation of racing lanes and prevent pool edge damage.

1. Hooks over the pool edge to enable easy and safe removal of lanes.
2. Produced from reinforced Fiber-reinforced plastic (FRP).

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166147	EOP013	LANE SAVER	GRP LANE REMOVAL	3.25kg	0.07m ³

Back Stroke, False Start Set & Lifeguard Chair

BACK STROKE & FALSE START SET

Contains a complete set of poles, flags, lines and pool deck fittings, including:

1. 2 x SS316 False Start Poles.
2. 1 x False Start Flags and Rope
3. 2 x Deck Hole Anchors
4. Three sizes available - 21m, 25m and 50m.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166139	EOP039	FALSE START SET WITH ANCHOR & ROPE	SS316 Poles x 2, DH Anchors x 2	30kg	0.40m ³
931166140	EOP032	BACKSTROKE SET w FLAGS	SS316 Poles x 2, DH Anchors x 2	54kg	0.65m ³

LIFEGUARD CHAIR

1. Sturdy Aluminum construction with white powder coating.
2. Nylon wheels allows the chair to be safely moved.
3. Rubber inserts protect the pool deck from scratches and ensures stable positioning.
4. Lifeguard chair has fittings for the mounting of a lifeguard buoy and Umbrella, both located just behind the seating location.
5. Height from ground to base of seat is 1895mm.
6. Base dimensions are 1200mm x 1200mm.
7. Total height to top of chair is 2000mm.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166141	EOP012	LIFEGUARD CHAIR	ALU LifeGuard Chair - 4 Step	51kg	1.24m ³

Block Platform & Grating

BLOCK PLATFORM

It is designed to provide a safe and efficient means of managing competition and fitness swimming in an overflow or 'wet deck' pool environment.

1. Compliance FINA standard for competition and training events.
2. Enables the installation of starting blocks and timing equipment in over flow pool environment
3. Movable gratings on top and sides for quick and easy cleaning.
4. Support most popular timing Systems and touch pads.
5. Non-slip surface provides positive confirmation of the end of the pool to the swimmer as well as safe and speedy exiting of the pool.

Product Order Code

Code	Model	Product	Description	Weight	Volume
931166149	EOP023	FRP BLOCK PLATFORM	White FRP 2.5m x 0.7m x 0.3m	60kg	0.80m ³
931166148	EOP024	HITECH BLOCK PLATFORM	White Extruded Plast 2.5m x 1m x 0.3m	100kg	1.00m ³

GRATING

Competition Pool Gratings connection joint by interlocking design that maximum strength and durability on the pool deck to provide better of comfort under the feet.

Features:

1. Safe and non-toxic Polypropylene (PP) material with strong and durable interlocking connection joint between each grating.
2. Anti-Slip's slip resistance grade is equivalent to DIN 51097 testing criteria, Category B.
3. UV resistant and color consistent.
4. Easy maintenance and cleaning
5. Available in 250mm, 300mm, and 350mm width

Unit in mm
